

Department of Homeland Security Acquisition Manual

December 2003

FOREWORD

The Department of Homeland Security Acquisition Manual (HSAM) implements and supplements the Federal Acquisition Regulation (FAR) and the Homeland Security Acquisition Regulation (HSAR). It is non-regulatory in nature and provides uniform procedures for the internal operation of acquiring supplies and services within the Department of Homeland Security. The HSAM format conforms to the arrangement and numbering system of the FAR and HSAR and is divided by chapters and subchapters. The HSAM is not a stand alone document and must be read in conformance with the FAR and HSAR.

The HSAM first edition, effective December 19, 2003, includes relevant Internet links wherever external references are made. The DHS Office of Acquisition Policy and Oversight intends to focus its information dissemination efforts to the Internet, and will not publish any hard copies of the manual. Please provide any suggestions or comments to the Office of Acquisition Policy and Oversight at acquisition@dhs.gov

Subchapter 3001.1 Purpose, Authority, Issuance

3001.101 Purpose.

The Department of Homeland Security Acquisition Manual (HSAM) is issued by the Chief, Procurement Officer (CPO). It establishes for the Department of Homeland Security uniform

department-wide acquisition procedures, which implement or supplement the [Federal Acquisition Regulation \(FAR\)](#) and the Homeland Security Acquisition Regulation (HSAR), and other agency regulations and statutory requirements.

3001.103 Authority

The HSAM is issued pursuant to the DHS Delegation Number 0700, Delegation to the CPO for Acquisition and Financial Assistance Management.

3001.104 Applicability.

All acquisitions within the Department shall follow this manual unless otherwise excluded by the FAR, HSAR, or this manual. The Transportation Security Administration (TSA) is exempt from use of this manual, except as indicated in chapters 3004, 3005, 3007 and 3033.

3001.105 Issuance.

3001.105-170 Publication and of HSAM.

(a) This manual is issued electronically on the internet at <http://www.dhs.gov/dhspublic/>.

3001.105-270 Arrangement of HSAM.

(b) *Numbering.* (1) This manual conforms to the arrangement and numbering system prescribed by [\(FAR\) 48 CFR 1.105](#). HSAM addresses the specific paragraphs for which supplementation or implementation applies. For example, this paragraph supplements [\(FAR\) CFR 1.105-2\(b\)\(1\)](#); therefore, the only paragraphs cited in HSAM 3001.105-270 would be paragraphs (b) and (1).

(2) HSAM coverage is identified by the prefix "30" and followed by the complete HSAM cite which may be down to the subparagraph level (e.g., HSAM 3001.105-3).

(3) Coverage in the HSAM that supplements the FAR will use chapter, subchapter, section and subsection numbers ending in "70" through "89" (e.g., HSAM 3001.202-70).

(4) Coverage in the HSAM, other than that identified with a "70" or higher number, that implements the FAR or HSAR will use the identical number sequence and caption of the FAR or HSAR segment being implemented which may be down to the subparagraph level (e.g., HSAM 3001.105-3(a)).

(c) *References and citations.* This manual may be referred to as the Homeland Security Acquisition Manual or the HSAM. Cross references to the FAR, HSAR, or HSAM in this manual will be cited by "FAR", "HSAR", or "HSAM" followed by its numbered cite. As an electronic document, the HSAM contains many links (identified by blue print) to the word or term referenced in the text.

3001.105-3 Copies.

(a) The HSAM is issued electronically and a loose-leaf version may be downloaded at <http://www.dhs.gov/dhspublic/>. No hardcopy distribution will be made.

3001.106 OMB approval under the Paperwork Reduction Act.

Prior to obligating funds and entering into a contractual agreement for information collection activities, the contracting officer shall obtain a clearance and approval from the Office of management and Budget (OMB). The SF-83, Request for OMB Review, shall be used to request OMB's review and approval. Organizational Elements (OEs) Paperwork Clearance Officers are available to assist in preparing the information collection justification for the SF-83.

(a) *Data collection under proposed contracts.* SF-83s shall be forwarded to the Office of the Chief Information Officer (CIO), for processing to OMB. Early coordination with Paperwork Clearance Officers prior to release of the solicitation should prevent delays caused by the requirement to obtain OMB approval.

(b) *Data collection under HSAR Supplements.* An SF-83, along with the calculations used to derive the numbers shown on the SF-83, shall be forwarded to the CPO along with the proposed HSAR Supplement coverage (see HSAM 3001.304) for coordination.

Subchapter 3001.2 Administration

3001.202-70 Departmental compliance with the FAR, HSAR, and HSAM.

The listing of cognizant CPO Office Personnel for FAR, HSAR, and HSAM identifies the appropriate individual by Part/Chapter and project assignments to contact within the Office of Chief Procurement Officer (OCPO).

Subchapter 3001.3 Agency Acquisition Regulations

3001.301 Policy.

(a)(1) *Delegations of FAR and HSAR procurement authority.* The following is applicable with respect to delegations of FAR and HSAR procurement authority included in this manual:

(i) *Agency head delegations.* Certain FAR and HSAR functions are non-delegable and reserved by the Secretary. All reserved and delegated functions (either to the Office of the Secretary (OSDHS)) or the OEs are indicated in the applicable chapters of this manual. Lower organizational levels for FAR and HSAR agency head functions shall be authorized by the CPO (who will coordinate with other DHS officials as deemed appropriate).

(ii) *Head of the contracting activity (HCA) functions.* Certain FAR and HSAR functions which are non-delegable and reserved for the HCA or equivalent organizational level are indicated in the applicable chapter of this manual. For delegable functions, compliance with the level indicated in the applicable chapter of this manual or the HSAR is required unless otherwise authorized by the HCA. The HCA may retain both delegable and non-delegable functions

assigned to the HCA. Approved HCA functional delegations which are different from those specified in this manual shall be in writing and stored in a centralized location within the OE. A copy of the delegation shall be submitted to the CPO within 30 days of issuance.

(iii) Any other authorities of this manual besides those mentioned in (i) or (ii) above may be assigned to a higher level within the OE than that stipulated in this manual unless specified otherwise. Any authorities assigned or redelegated (e.g., approval of streamlined acquisition plans per HSAM 3007.170) pursuant to this subparagraph shall be in writing and stored in a centralized location within the OE. A copy of the assignment/redelegation shall be submitted to the CPO within 30 days of issuance.

3001.301-70 Amendment of HSAM.

(a) HSAM changes may be the result of suggestions by internal DHS personnel, other Government agencies, or the public. Proposed changes to this manual, along with rationale for the change, shall be submitted to DHS ATTN: Office of the Chief Procurement Officer, Director Policy and Oversight.

(b) Updates to the HSAM will be summarized in a HSAM NOTE published on the internet <http://www.dhs.gov/dhspublic> under "Business". An announcement of the HSAM NOTE issuance will be made to the HCAs. This announcement is used as the mechanism to alert users that the HSAM has changed. When the HSAM NOTE is issued, the electronic HSAM is simultaneously updated to incorporate the changes.

(c) The HSAM is maintained by CPO in electronic form. Maintenance of the HSAM will be made through the HSAR/HSAM change process.

(1) *HSAM Chapters.* This manual will contain internal DHS acquisition procedures within chapters which supplement or implement FAR and HSAR material. Chapters are normally coordinated through the HSAR/HSAM change process prior to issuance.

(2) *HSAM Notices.*

(i) HSAM Chapters will be amended by issuance of a HSAM Notice (also referred to as a HSAM NOTE); and

(ii) HSAM Notices are: (A) used to disseminate information that is relevant to the HSAM; and (B) normally integrated into the HSAM. HSAM Notices may occasionally contain new material that shall be issued quickly without going through the HSAR/HSAM change process before their release. However, subsequent to their issuance, these HSAM NOTES will be reviewed using the HSAR/HSAM change process and change pages to the HSAM Chapters will be issued as appropriate.

(3) *HSAM Appendices, Attachments, and Exhibits.* At the end of HSAM Chapters, Notices, and Bulletins, appendices may be used to provide supplementary material not suitable for insertion in the HSAM issuance itself (e.g., tables, other agency issuances). Appendices may contain

attachments with or without exhibits. Attachment(s) supplement the appendix, and exhibit(s) supplement the attachment. Both are made part of the appendix.

3001.301-71 Effective date.

Unless otherwise stated, the following applies--

(a) Statements in HSAM NOTES that the content is "effective upon receipt," "upon a specified date," or that changes set forth in the document are "to be used upon receipt," mean that any new or revised procedures or forms shall be used when issuing solicitations, contracts, or modifications thereafter; and

(b) If solicitations are already in process or negotiations complete when the HSAM NOTE is received, the new procedures or forms need not be used if it is determined by the Chief of the Contracting Office (COCO) that it would not be in the best interest of the Government.

3001.301-72 HSAM NOTE numbering.

HSAM NOTES will be numbered consecutively on a fiscal year basis beginning with number "01" prefixed by the last two digits of the fiscal year.

3001.304 Agency control and compliance procedures.

(a) DHS's goal is to ensure the HSAR and HSAM are consistent with FAR unless the FAR prescribes otherwise. Due to the leadtime necessary to implement FAR changes, conflict or inconsistency may exist. In those cases, the FAR takes precedent over the HSAR and HSAM.

(b) *OE acquisition regulations* shall:

(1) Be incorporated into the HSAR as a supplemental regulation;

(2) Be coordinated in accordance with OE internal procedures (including review by legal counsel) to ensure compliance with ([FAR](#)) [48 CFR 1.301](#) before submission to the CPO;

(3) Be submitted to the CPO for review and approval by a transmittal letter signed by no lower than HCA at the initial stages of the regulatory process (i.e., before proceeding to the public comment process); include a Paperwork Reduction Act (see HSAM 3001.404(a)(2)) and Regulatory Flexibility Act analysis, as appropriate; and be supported by a justification of need for the regulation;

(4) Be integrated within the HSAR with access on the internet at <http://www.dhs.gov/dhspublic/>; and

(5) Pertain only to that OE.

(c) *OE acquisition procedures* shall:

- (1) Contain no material which duplicates unless necessary for clarity (this is expected to be minimally required), paraphrases, or is inconsistent with the contents of the FAR, HSAR, and this manual;
- (2) Be consistent with the policies and procedures of the FAR, HSAR, this manual, and other Departmental guidance and follow the format, arrangement, and numbering system specified in HSAM 3001.105-270 and HSAM 3001.301-70 to the extent practicable; and
- (3) Be reviewed, as deemed appropriate, in accordance with internal operating procedures and the following:
 - (i) OEs shall provide an electronic version of promulgated OE-wide acquisition guidance implementing or supplementing this manual.
 - (ii) The HCA is responsible for ensuring that contracting offices limit their promulgation of acquisition procedures and, if procedures are necessary, to ensure they comply with subparagraphs (1) and (2) above.

Subchapter 3001.4 Deviations from the FAR, HSAR, and HSAM

3001.403 Individual deviations.

- (a) The HCA, without delegation, is authorized to grant individual deviations, except when this authority has been otherwise assigned by regulation or this manual.
- (b) A copy of approved individual deviations shall be provided to CPO within 5 working days of approval.

3001.404 Class deviations.

- (a) The CPO is authorized to approve class deviations unless ([FAR](#)) 48 CFR 1.405(e) is applicable. Requests for class deviations to the FAR, HSAR, and this manual shall be endorsed by the HCA before submitting the request to the CPO for approval. Submit all requests using the procedures and format at HSAR 3001.7.
- (2) Suggested changes to the FAR, HSAR, and this manual should be transmitted to the CPO after review and approval of the manager of the office requesting the change (e.g, the COCO). FAR recommended changes determined appropriate by the CPO will be forwarded by CPO to the Civilian Agency Acquisition Council.

Subchapter 3001.6 Career Development, Contracting Authority, and Responsibilities

Subchapter 3001.601 General.

The CPO, without delegation, is authorized to establish a new contracting activity at DHS Headquarter and delegate authority to manage functions within the activity. The Secretary, Under Secretary of Management, CPO, and HCAs are considered contracting officers within

DHS by virtue of their positions; no Certificate of Appointment (see HSAM 3001.603-3) is required.

3001.601-70 Designation of the Head of Contracting Activities and Chiefs of Contracting Offices.

(a) The CPO is delegated the authority to appoint HCAs. The OE shall nominate the individual in writing to the CPO by providing a copy of the individual's resume or other selection document which outlines the candidate's experience, education and training. The DHS HCA listing is available at Appendix A to this chapter.

(b) HCAs, without redelegation, shall designate individuals as COCOs.

3001.602 Contracting officers.

3001.602-2 Responsibilities.

Contracting officers may delegate limited responsibilities to an authorized representative(s) (e.g., Bankcard recipient, Contracting Officer Technical Representative (COTR), etc.). Any delegation of responsibility shall be in writing to specified individuals (by name, not position) and clearly enumerate the delegated responsibilities and any limitations attached thereto. COTR selection, training, certification, and appointment is discussed in HSAM 3042.70 and in OE policy.

3001.602-3 Ratification of unauthorized commitments.

(a) Definitions.

(1) "Ratifying official" means the individual having the authority to authorize the issuance of a contract award, purchase order, or other procurement instrument providing for the ratification of an unauthorized commitment.

(2) "Unauthorized commitment", as defined in ([FAR](#)) [48 CFR 1.602-3](#), includes, but is not limited to, any action by a person other than the contracting officer that results in: (i) continued performance by a contractor beyond the expiration date or the price established by the procurement instrument; or (ii) the commencement of performance of work in advance of issuance of a formal procurement instrument properly executed by a duly authorized contracting officer.

(b) Policy.

(2) The HCA may delegate the authority to ratify unauthorized commitments to no lower than the COCO.

(c) Limitations.

(7) The following procedures shall be used for ratification of an unauthorized commitment:

(i) It is the responsibility of the individual who made the unauthorized commitment to provide the following information to the ratifying official:

- (A) A discussion describing the circumstances causing the unauthorized commitment;
- (B) Reasons why normal procurement procedures were not followed;
- (C) What bona fide Government requirement necessitated the commitment;
- (D) Whether any benefit was received;
- (E) The dollar value of the commitment and an evaluation of the contractor's effort in terms of appropriateness of the hours expended, type of labor used, and other costs expended;
- (F) Rationale for the contractor selected and identification of other sources considered;
- (G) Status of performance;
- (H) Any other pertinent facts including invoices, receiving report, or other documentary evidence of the transaction;
- (I) The signature, following the above information, of the employee who created the unauthorized commitment certifying to the accuracy of the information provided;
- (J) Recommendations, signed by the employee's second level supervisor, for corrective action to preclude the situation from recurring; and
- (K) A complete procurement request (i.e., DHS Form 700-20, Procurement Request), including a certification that the funds included in the purchase request for the ratifying action were available at the time the unauthorized commitment occurred.

(ii) If the individual who made the unauthorized commitment is not available, the office responsible for the commitment shall provide the information described in subparagraph (i) above with the name (vice signature) of the individual who made the unauthorized commitment.

(iii) A written contract, as defined under [\(FAR\) 48 CFR 2.101](#), is not required to confirm the ratification of an unauthorized commitment. The contracting officer, on a case-by-case basis, shall decide if a contract or other written means would be appropriate for a particular situation. Such factors as the furnishing of Government property, promise of product delivery, dispute over invoiced prices, etc., are to be considered when determining if a contract will or will not be used.

(A) The complete file containing all the ratification documentation requirements of subparagraph (c)(7)(i) (also see (B) below), shall be provided to the ratifying official for a determination to ratify or not to ratify the action.

(B) Before ratification of an action, a letter requesting payment or an invoice from the contractor who provided the supply or service shall be received. If not already received, the contracting

officer shall obtain an invoice after ratification for submission to the finance office.

(C) A memorandum signed by the contracting officer who approves the invoice shall be sent to the finance office along with the invoice. The original certified DHS Form 700-20, Procurement Request, (covering the total amount of the invoice), a copy of the ratifying official's ratification, and the document confirming the ratification (see subparagraph (iii) above), shall be attached to the memorandum.

(D) A copy of the memorandum, DHS Form 700-14, invoice, and original ratification documentation shall be retained in the contract office file.

(E) A letter explaining the disposition of the unauthorized commitment shall be sent to the contractor by the contracting officer if payment will not be made.

(iv) Each contracting office shall establish a file system to ensure those actions for which a ratification was requested can be identified with the documentation below in paragraphs (A) through (G). Each ratification request included in the office file shall be retained for 6 years and 3 months after final payment or after the ratifying official determines that the action will not be ratified. The office file pertaining to a ratification action shall contain the following:

(A) The name of the office and person that made the unauthorized commitment;

(B) A brief description of the commitment, the amount of the action, and a written determination, with supporting documentation, that either the request should not be ratified or that the ratified price is fair and reasonable;

(C) The name of the firm or person to whom the commitment was made (if not in the ratification document);

(D) The date the commitment was either ratified (if not in the ratification document) or not ratified;

(E) A copy of the ratification document as applicable;

(F) Evidence of legal counsel concurrence with any ratification that is 10 percent or more of the simplified acquisition threshold; and

(G) Any disciplinary action taken or an explanation as to why none was considered necessary.

(d) *Nonratifiable commitments.* If an unauthorized commitment is disapproved for ratification (nonratifiable), the contracting officer shall promptly notify the individual who made the unauthorized commitment, in writing, stating the reasons for disapproval and recommending the individual obtain legal advice. The contracting officer shall also advise the individual that the nonratifiable commitment will not be paid in accordance with prescribed contracting methods of payment. If the unauthorized commitment involves the Bank of America credit card or payment has already been made via the SMART PAY program, the responsible individual may be billed or other reimbursement action taken.

3001.603 Selection, appointment, and termination of appointment.

3001.603-1 General.

The HCA, with authority to redelegate to no lower than the COCO, is delegated authority to select, appoint, and terminate the appointment of contracting officers.

3001.603-2 Selection.

The Clinger-Cohen Act, Public Law 104-106, and the Office of Federal Procurement Policy, Policy Letter 97-01, direct the implementation of mandatory training, education, and experience requirements for entry and accession in the acquisition career field. The DHS MD Number 0740.1, Issuance of New Contracting Warrants, establishes procedures for the implementation of these requirements and other career development efforts. This document is issued under the authority of HSAM 3001.103 as a supplement to HSAM Chapter 3001. This policy also includes DHS MD Number 0780, Contracting Officer Technical Representative (COTR) and Contracting Officer Representative (COR) Appointment and Responsibilities, as supplement to HSAM Subchapter 3001.103.

3001.603-3 Appointment.

(a) The appointing authority shall maintain information on the limits of contracting officer authority.

3001.603-4 Termination.

The appointing authority may terminate the appointment of a contracting officer at any time. Written notice stating the reasons and the effective date of the termination shall be given to the contracting officer by the appointing authority (see HSAM 3001.603-1).

3001.670 Responsibility of other Government personnel.

(a) Responsibility for the decision of what to buy and when to buy rests mainly with program and certain staff offices. Responsibility for determining how to buy, the conduct of the buying process, and execution of the contract rests with the contracting officer.

(b) Program personnel, using the contracting process to accomplish their programs, shall support the contracting officer in ensuring that:

- (1) Requirements are clearly defined and specified;
- (2) Competitive sources are solicited, evaluated, and selected;
- (3) Quality standards are prescribed and met;
- (4) Performance or delivery is timely;

12-19-03

(5) Prices, estimated costs, and fees are reasonable; and

(6) Files are documented to substantiate the judgments, decisions, and actions taken.

Subchapter 3004.6 Contract Reporting

3004.601 Record requirements.

(a) Except for the U.S. Coast Guard and Federal Protective Service, use of the Homeland Security Contract Information System (HSCIS) is required effective October 1, 2003. The HSCIS, which is operated, updated and maintained by the Department of Health and Human Services, meets the requirements of [\(FAR\) 48 CFR 4.601](#) and also has the capability to generate query reports. The HSCIS collects and reports data on all reportable procurement actions. See HSAM 3004.602(c) for reporting actions of \$25,000 or less. The HSCIS is used by all DHS as the primary source of procurement data. Each contracting officer is responsible for timely and accurate reporting of data to HSCIS.

(d) All contract actions shall be entered in the HSCIS within 30 calendar days of the date of obligation for the action. The HSCIS Users Manual should be consulted for entering data into the system.

(1) Contracting officers are responsible to ensure the contract reporting is completed in the HSCIS.

OEs shall report all UNICOR acquisitions in accordance with the procedures under HSAM 3004.602(c).

3004.602-71 Unique Procurement Instrument Identifiers (PIID) System.

3004.602-7100 Scope.

(a) This subchapter prescribes policies and procedures for assigning numbers to all solicitations, contracts, and related instruments, and is in accordance with ([FAR](#)) [48 CFR 4.601](#) which requires all agencies to generate unique procurement instrument identifiers by October 1, 2003. DHS OEs unable to comply with this policy by October 1, 2003 must provide the Office of the Chief Procurement Officer with a plan of action and date for compliance. Compliance date shall not be later than September 30, 2004.

(b) Alphanumeric characters, other than those prescribed in this subchapter, shall not be used as a part of the PIID or Supplemental PIID (SPIID). If additional identification is needed by the OE

for internal reasons, it shall be placed on the procurement instrument in such a location as to separate it from the PIID/SPIID. The contracting officer shall assign a PIID/SPIID to each type of instrument as described below. The number shall be retained for the life of the instrument to which it is assigned.

3004.602-7101 Procurement Instrument Identifiers (PIIDs).

(a) Elements of the PIID. The PIID shall consist primarily of 13 to 15 alphanumeric characters. (Dashes may be used at the discretion of the OE by inserting the dashes between: positions six and seven; positions eight and nine; and positions nine and ten.) The alphanumeric characters shall be positioned as follows:

(1) Positions one and two. A two-digit alphabetic code that identifies the procuring agency. This code shall always be "HS", which means the Department of Homeland Security.

(2) Positions three and four. A two-digit alphabetic code that identifies the OE within DHS:

Positions 3 and 4	DHS Organization Elements
BP	Customs and Border Protection
CE	U.S. Immigration and Customs Enforcement
CG	U.S. Coast Guard
FE	Federal Emergency Management Agency
FL	Federal Law Enforcement Training Center
HQ	DHS Office of Procurement Operations
SS	U.S. Secret Service
TS	Transportation Security Administration

(3) Positions five and six. A two-digit alphanumeric or alpha code that identifies the sub organization/contracting office of the OE that issued the procurement instrument. For example, the Animal and Plant Health Inspection Service (APHIS) contracting office will use the designator "HSBPAP". In this model, HS identifies Homeland Security, BP identifies the Bureau of Customs and Border Protection and "AP" designates the APHIS office. Each OE will assign and maintain the two digit unique suborganization/contracting office codes.

(4) Positions seven and eight. A two-digit numeric code that is the last two digits of the fiscal year in which the PIID is assigned to the procurement instrument.

(5) Position nine. A one-digit alphabetic code, which identifies the type of procurement instrument (i.e., agreement, sealed bidding, contracts, etc.):

A - Agreement: Use for a basic agreement, basic ordering agreement (BOA), or blanket purchase agreement (BPA) as defined under ([FAR](#)) [48 CFR 13.3](#), [16.7](#), and Federal Supply Schedules. Do NOT use for Cooperative Agreements.

B - Sealed Bidding: Use for solicitations as defined under ([FAR](#)) [48 CFR 14.2](#). (*Character "B" use is at the OE's discretion.*)

C - Contracts: Use for all contracts (i.e., letter, 8(a), etc.). Also, includes contracts for appraisals, surveys, title, closing, and other work related to leasing or acquiring real estate rights. Do NOT use this code for Task or Delivery order contracts.

D - Task or Delivery Order Contracts: Use for Indefinite Quantity, Definite Quantity, and Requirements contracts as defined under ([FAR](#)) 48 CFR 16.5.

E- Reserved.

F - Task or Delivery Orders: Use when placing orders directly against (1) a contract administered by another Government agency or department e.g., General Services Administration (Federal Supply Schedule), the Department of Veterans Affairs, or the Office of Personnel Management, (2) contracts administered by agencies other than DHS including the National Industries for the Blind, National Industries for the Severely Handicapped, and the Federal Prison Industries (UNICOR). (Also see HSAM 3004.602-7102(a)(1).)

G - Reserved.

H - Reserved.

J – Task or Delivery Orders: Use when placing orders against DHS contracts. (Also see HSAM 3004.602-7102(a)(2).)

K - Land Purchases and Condemnations: Use for acquisition of permanent real estate interests (fee simple or easement) by purchase or condemnation. Does not include leasehold interests (land or space) in real property.

L - Lease Agreement: Use for leasing real property and supplies or equipment. Also, includes instruments for both land and space where the Government obtains real estate rights and aerial easements for a limited period of time, and may or may not be monetary in consideration. Do NOT use this code for Interagency Agreements.

P - Purchase Orders: Use for purchase orders described under ([FAR](#)) 48 CFR Part 13 (assign V, then W when numbering capacity of P becomes exhausted during a fiscal year). Also, includes orders for appraisals, surveys, title, closing, and other work related to leasing or acquiring real estate rights.

Q - Request for Quotation: Use when the procedures under ([FAR](#)) 48 CFR Part 13 are followed.

The letters M, N, T, Y and Z are available for the internal use by the OE after coordination with the OCPO.

(6) Positions ten through fifteen. OEs may use four to six characters in this field.

(b) Illustration of the PIID. An example of a PIID is illustrated in the below chart. The PIID HSCG23-03-B-00001 identifies a sealed bid issued by the Department of Homeland Security, United States Coast Guard, Headquarters Contracts Office, Washington, D.C., issued in Fiscal Year 2003.

<u>Position</u>	<u>Identification</u>	<u>Code</u>
1-2	Agency	HS
3-4	Organizational Element	CG
5-6	Sub organization/contracting office of the OE	23
7-8	Fiscal Year in which the PIID is assigned to the procurement instrument.	03
9	Type of procurement instrument	B
10-15	Unique identifiers of the procurement instrument	0001, 00001, 000001, A001, AB001, ABC001

3004.602-7102 Supplementary Procurement Instrument Identifiers (SPIIDs).

(a) A Supplementary number shall be used in conjunction with the PIID, to identify the following:

(1) Orders issued under other federal agencies indefinite delivery contracts, BOAs, and BPAs. The ordering office shall use the 13 to 15 character number specified with instrument code “F” for task or delivery orders under HSAM 3004.602-7101(5), as the SPIID.

(2) Ordered issued under DHS OE indefinite-delivery contracts, BOAs, and BPAs. The ordering office shall use the 13-15 character number specified with instrument code “J” for task or delivery orders under HSAM 3004.602-7101(5), as the SPIID, except for call orders placed under OE awarded BPAs where the individual call amount is not directly reported into the

FPDS-NG. OEs shall establish an internal numbering process for the call orders with retrieval purchase descriptions, date of purchase, amounts and vendor source.

3004.602-7103 Other Identifiers relating to PIIDs and SPIIDs.

(1) Amendments to Solicitations. Amendments shall be assigned a four position numeric serial number always sequentially beginning with 0001.

(2) Modifications to Contracts, Agreements, and orders. Modifications to contracts agreements, and orders shall be numbered sequentially with a six-position alphanumeric serial number beginning with either A00001 or P00001. If the principal procuring office retains contract administration, the numeric serial number shall be prefaced with a “P”. If administration is delegated to a contract administration office, such as a Project Resident Office (PRO) or the Defense Contract Management Agency, the modifications issued by the administration office shall be prefaced with an “A”.

3004.670 Acquisition related reporting requirements.

Appendix A of this chapter is a list of various acquisition related reporting requirements. Unless otherwise advised by the CPO or Head of Contracting Office (HCA), the Chief of Contracting Office (COCO) shall ensure that each report is submitted to the required location by the due date.

Subchapter 3004.8 Contract Files.

3004.801 General.

The COCO is designated as the head of each office performing contracting and contract administration functions. The Chief of the Finance Office of the OE is designated as the head of the office performing paying functions.

3004.804 Closeout of contract files.

3004.804-1 Closeout by the office administering the contract.

(a) [\(FAR\) 48 CFR 4.804](#) outlines detailed procedures for closing out contract files. The file is normally closed out by the contracting office administering the contract; however, as permitted by [\(FAR\) 48 CFR 42.2](#), there may be instances where the file is administered by a Government agency or other OE than that which awarded the contract. A contract cannot be closed out until all terms and conditions of the contract have been satisfied by the contractor and the Government.

3004.804-170 Monitoring contract closeouts.

(a) *Policy*. Contracting officers responsible for contract administration shall ensure that their contracts are closed out within the time standards set forth under [\(FAR\) 48 CFR 4.804-1](#). Compliance with these standards may be beyond the contracting officer's control in situations

where necessary administrative actions are required by others (e.g., cognizant audit agency, contractor, etc.). However, the contracting officer shall maintain close liaison with these entities to ensure that the necessary actions are not unduly delayed and are accomplished.

(b) *Closeout action for cost reimbursement contracts or orders.* The contracting officer shall ensure that closeout action (e.g., request for final audit, closing documents, etc.) commences within 90 calendar days after receipt and acceptance of all contract deliverables (i.e., the contract completion date).

(c) *Tracking system.* The COCO must utilize an automated or manual contract closeout tracking information system to identify those contracts which are physically completed and ready for closeout, but have not been administratively closed out and disposed of in accordance with [\(FAR\) 48 CFR 4.8](#), HSAR 3004.8, and this subchapter.

(d) *Monitoring of tracking system.* The COCO is responsible for reviewing quarterly the latest status of the contract closeouts and disposal to ensure that contracting officers are closing contracts in a timely manner.

3004.804-5 Detailed procedures for closing out contract files.

(b) Contracting officers may use a Contract Completion Statement, to satisfy the requirements of [\(FAR\) 48 CFR 4.804-5\(b\)](#).

3004.805 Storage, handling, and disposal of contract files.

(a) Contract and order files shall be disposed of in accordance with DHS MD Number 0550.1, Records Management. Contracting officers shall seek the guidance of their OE's Records Management Officer (RMO) or their records liaison officer (RLO) for additional information concerning the requirements. In no case may the files be destroyed before the timeframes specified in [\(FAR\) 48 CFR 4.805](#). The list of Federal Records Centers (FRC) is provided at 44 U.S.C. §2907.

(b) Files sent to a FRC shall have a disposal date annotated on the front of the file. This is the date the file can and will be destroyed by the FRC. Contracting officers shall determine this date based on the retention period specified in [\(FAR\) 48 CFR 4.805](#). Since the documents listed under [\(FAR\) 48 CFR 4.805](#) are normally retained in one file in the contracting office, contract documents exceeding \$25,000 shall not be disposed of earlier than 6 years and 3 months (3 years for those valued at \$25,000 or less), after final payment.

(c) Prior to disposal of a file, it may become necessary to retrieve a file from the FRC; therefore, contracting officers should ensure that the RMO or RLO maintains a record of the files sent to the FRC.

3004.805-70 Storage, handling and disposal of purchase card records.

Purchase Cards records at or below the simplified acquisition threshold for other than construction orders shall be retained for three years after final payment. Purchase Card records for construction order shall be retained for six years and three months.

Subchapter 3004.9 Taxpayer Identification Number Information

3004.903 Reporting contract information to the IRS.

(a) The CPO is delegated authority to report certain information to the IRS.

3004.903-70 Additional reporting contract information to the Department of Treasury, Internal Revenue Service (IRS).

(b)(1) Contracting officers have satisfied the requirements of 26 U.S.C. 6050M for reporting awards cited under ([FAR\) 48 CFR 4.903\(b\)\(1\)](#) when the award information is reported to the DHS HSCIS. The CPO sends the HSCIS information to the FPDS each quarter. The Director of the Federal Procurement Data Center extracts the requisite information from the FPDS and files the required information with the IRS. To report awards valued at less than \$25,000, the contracting officer shall provide the finance office with a copy of the award document with the contractor's tax identification number annotated on the document.

3004.904-70 Reporting payment information to the IRS.

In addition to the requirements cited under ([FAR\) 48 CFR 4.904](#), 26 U.S.C. §6041 and §6041A, require Federal agencies to report to the IRS all individuals, partnerships, proprietorships, etc. that will be paid \$600 or more in a calendar. This means that any contractor paid \$600 or more a year must be reported to the IRS.

3004.905-70 Solicitation provision.

The provision at ([FAR\) 48 CFR 52.204-3](#) requires the offeror to furnish its tax identification number (TIN). It is highly unlikely that it will be used with acquisitions that are subject to ([FAR\) 48 CFR 13](#) procedures, therefore contracting officers shall obtain the TIN from the contractor by oral or written request.

(c) Contracting officers shall provide the TIN to the finance office who must furnish the TIN to the Department of Treasury with each invoice certified for payment. (See ([FAR\) 48 CFR 52.212-3](#) for commercial items.)

Subchapter 3004.70 Review and Approval of Contracts and Contract Related Documents.

3004.7000 Scope of subchapter.

(a) Review and approval requirements for proposed solicitations, prenegotiation objectives, documentation of negotiations, contract awards, and contract modifications when the value of the acquisition (inclusive of options) exceeds the simplified acquisition threshold are described in this subchapter. The award approval requirements under this subchapter are in addition to the approval requirements of [HSAM 3005.303, Announcement of contract awards](#).

(b) This subchapter does not apply to acquisitions made under FAR Parts 8, 13, 17.5, or 41.

(However, see HSAM Subchapter 3004.7003(c) regarding legal reviews.)

3004.7001 Definitions.

The following definitions are only applicable to this HSAM subchapter:

(a) "Independent review" means review by a procurement professional(s) other than the drafter of the document being reviewed or the contracting officer responsible for the acquisition (e.g., a review board, a member of the policy staff, another contracting officer of an equal or higher organizational equivalent).

(b) "Legally sufficient" means that the document has been reviewed by an attorney in the DHS HQ or OE legal office, and determined to be in compliance with applicable statutes, regulations, and procedures.

(c) "Review" means to scrutinize the document to ensure that the contracting officer has complied with acquisition statutes, regulations, policies and procedures; has followed sound business practices; and has ensured that the contents of the contract file are in accordance with [\(FAR\) 48 CFR 4.803](#).

3004.7002 General requirements.

Internal and independent reviews required by the HCA (e.g., level above the contracting officer review, coordination with a contract review board, quality assurance personnel, operational users, etc.) shall be established by the HCA to meet the requirements of 3004.7003(b) through (e). At remote contracting activities where the contracting officer is the highest ranking official, review at a level above the contracting officer is not required, unless the action exceeds \$1,000,000.00. HCAs shall ensure that review and approval procedures are established for those remote locations where applicable.

3004.7003 Review and approval procedures.

(a) Contracting officers: The contracting officer responsible for the acquisition shall review the solicitation, prenegotiation objective, the document meeting the [\(FAR\) 48 CFR 15.406-3](#) requirements, contract or contract modification, as applicable, prior to the other reviews required by this subchapter. The contracting officer is the level of approval for all proposed solicitations, prenegotiation objectives, documentation of price negotiations, contract awards, and contract modification awards valued at or below \$500,000. Also, see subparagraph (b) to (e) for other review and approval requirements for actions which exceed \$500,000.

(b) OE review procedures: HCAs shall ensure that review and approval of the following actions for proposed acquisitions expected to exceed \$500,000:

(1) *Solicitations*: An independent review shall be performed of the solicitation. Based on this review, an individual at a level above the contracting officer responsible for the action shall approve the solicitation prior to release to prospective offerors.

(2) *Prenegotiation Objectives and Negotiations*: Prenegotiation memoranda shall be reviewed and documentation of negotiations approved by an individual one level above the contracting officer responsible for the acquisition.

(3) *Contract and Contract Modification Awards*: An independent review shall be made of the contract or contract modification, as applicable and the contract file. The contract document submitted for review shall be accompanied by the file, which must contain all required documentation (e.g., prenegotiation objective, documentation of negotiations, determinations and findings, etc.) to support the proposed award. Based on this independent review, an individual, at a level above the contracting officer responsible for the acquisition, shall approve the proposed award. Exceptions to this requirement may be made for all unilateral contract modifications that do not require a proposal from or negotiations with the contractor (e.g., those for incremental funding and exercising options).

(c) Legal review: Solicitations, contract awards, and contract modification awards expected to exceed \$500,000 shall be reviewed for legal sufficiency. This amount may be increased by the HCA in coordination with the OE's legal counsel. For the DHS HQ Office of Procurement Operations (OPO), the HCA would coordinate with the DHS Headquarters General Counsel. Modifications where the sole purpose is to extend the term of the contract or orders where the basic contract was reviewed by legal counsel are exempted from this review. However, issues that warrant legal review may arise in any acquisition of any dollar value. Contracting officers may request legal review due to the complexity of issues of the acquisition at any dollar amount.

(d) Cognizant technical/program officer review: The contracting officer shall ensure that all solicitations, contract awards, and contract modification awards are coordinated with the cognizant technical/program office prior to issuance or award.

(e) Office of Chief Procurement Officer (OCPO) Review and approval: The OCPO may require review of any significant DHS solicitation, contract award, or contract modification during the acquisition process to ensure that sound business practices are being used; actions are in compliance with applicable laws, executive orders, and acquisition regulations; and actions serve the Government's best interest.

(1) Actions requiring approval. The OCPO will identify specific solicitations and contracts actions for OCPO review based on the annual advanced acquisition plans submitted as required in HSAM Chapter 3007.172. In recognition of acquisition offices workload variance, each HCA shall negotiate an annual review agreement with the OCPO, no later than August 31, of each year, to establish Headquarters and OE-specific acquisitions to be reviewed. The HCA is responsible for notifying the specific contracting office of the required annual review and approvals as established by the HCA and OCPO.

(2) Information required for OCPO review and approval.

(a) General.

(i) For actions requiring OCPO review, the reviews of paragraphs HSAM 3004.602-7003(a) through (d) shall be obtained prior to transmittal for the OCPO review and approval.

(ii) Provide evidence of review and resolutions of comments with the HCA transmittal memorandum. The memorandum transmitting the request for approval shall identify the action submitted, the supporting documents provided, and any peculiar or extraordinary circumstances relating to the action which needs to be taken into consideration.

(iii) Request for approval shall be forwarded to OCPO in sufficient time to allow at least five working days from receipt for review and approval.

(iv) Documents submitted for review will be retained by the OCPO for record purposes. Any proprietary information or source selection information shall be marked and protected in accordance with [\(FAR\) 48 CFR 3.104-5](#) and HSAM 3003.104-5. The following documents shall be submitted with the request for approval:

(A) Justification for other than full and open competition;

(B) Undefined modification;

(C) Solicitation with all amendments and record of any independent review;

(D) Government cost estimate;

(E) Proposal or claim;

(F) Proposal evaluation reports (e.g., technical evaluation, technical analysis, cost and/or price analysis.)

(G) Audit or waiver;

(H) Fair market price estimate for Section 8(a) contract awards under [\(FAR\) 48 CFR 19.8](#);

(I) Determination of competitive range;

(J) Calculation of profit/fee objectives;

(K) Proposed modification; and

(L) For sealed bids, documentation for awarding as required by [\(FAR\) 48 CFR 14.408-7](#).

(b) Approval process. Upon completion of the review process, the initiating contracting officer and responsible HCA will be informed by OCPO, in writing, of approval or disapproval of the action. Disagreements that cannot be reconciled by the contracting officer and the OCPO procurement analyst reviewer must be resolved by the Chief, Acquisition Policy and Oversight, in the OCPO. If the OCPO gives conditional approval, requiring the contracting officer to take corrective action within a specified period of time, the COCO shall ensure that corrective actions are accomplished within the time prescribed.

3004.7004 Procedural documentation requirements.

(a) The documentation of legal comments received or a statement from legal counsel that the procurement document has been reviewed and found to be legally sufficient must be placed in the contract file. The contracting officer is responsible for assuring that all legal comments are

responded to in the contract file.

(b) If the award approving official conditionally approves or disapproves the award, the contracting officer must include in the contract file a written determination (signed and dated) indicating that all of the conditions (e.g., corrections, deletions, additions, changes, etc.) were satisfied prior to award.

3004.7005 Periodic compliance reviews.

Periodic oversight reviews (e.g., an established procurement management review program, review of selected procurement actions by Headquarters, etc.) of solicitations, prenegotiation objective, documentation of negotiations, contract awards, and contract modification awards must be conducted by OEs. All reviews must be documented in writing.

All DHS solicitations shall be available via the Internet at <http://www.fedbizopps.gov>. No other mechanisms to post solicitations are permitted.

Subchapter 3005.2 Synopses of Proposed Contract Actions

3005.203 Publicizing and response time.

3005.203-70 Use of FedTeDS for Sensitive but Unclassified Acquisition Information on the Internet.

Effective 1 October 2003, all Sensitive But Unclassified (SBU) acquisition information used during the solicitation/proposal phase of the procurement cycle will be protected by FedTeDs.

The determination of sensitivity will remain the responsibility of the requiring activity until further guidance is released. SBU acquisition materials includes information related to operations, systems, structures, individuals and services essential to the security and management of a facility, including telecommunications, electrical power, building facility structural layout, gas and oil storage/transportation, water supply, emergency services, and the continuity of operations.

3005.207 Preparation and transmittal of synopses.

(c)(4) *Standard format.* When preparing synopses, the following is applicable:

FORMAT ITEM AND EXPLANATION DESCRIPTION OF ENTRY

6. CLASSIFICATION CODE. The FedBizOpps staff is not authorized to determine the classification code for any FedBizOpps notice. Because a misclassified contract action fails to notify the firms most likely to respond and therefore may violate the Competition in Contracting Act, the contracting officer is held responsible for correctly classifying a FedBizOpps notice. A misclassified contract action must be corrected and re-synopsized in the FedBizOpps. Detailed classification codes are available on the FedBizOpps website at: <http://www.FedBizOpps.gov/>.

Subchapter 3005.3 Synopses of Contract Awards

3005.301 General.

The contracting officer must document the contract file with the reason(s) why a contract award was not synopsized.

3005.301-70 Synopsis of contracts containing Public Law 95-507 subcontracting plans and goals.

The synopsis of contract award, where applicable, shall include a statement identifying the contract as one containing Public Law 95-507 ([FAR](#) 48 CFR 19.702) subcontracting plans and goals.

3005.303 Announcement of contract awards.

(a) Public announcement. Contracts valued at the threshold stated in ([FAR](#) 48 CFR 5.303(a)) or more shall not be distributed nor any information released to any source outside of DHS (except as described in ([FAR](#) 48 CFR 15.503)), where the contract has been approved until the DHS Office of Legislative Affairs has advised the contracting officer (or other official designated in accordance with Organizational Element (OE) procedures) that the contract may be released. The contracting officer may sign the contract, but no information may be released outside of DHS until the procedures contained in the subparagraphs below have been accomplished.

(1) The contract notification procedures contained in DHS Management Directive (MD) Number 2140, Congressional Notification of Contract Awards, this subchapter, and supplemented as necessary by OE procedures, shall be used to transmit the required contract award information in excess of \$3 million. As necessary, the DHS Office of Legislative Affairs will coordinate with the DHS Office of Public Affairs and the organizational Office of Legislative Affairs/Office of

Public Affairs to develop a communications plan for an organization or DHS press release. If there is no DHS press release, the information contained on the DHS Form 2140-01 will be used by the DHS Office of Legislative Affairs to contact interested Members of Congress concurrent with public release of the information. DHS Office of Legislative Affairs may also elect to have the organizational element's Office of Legislative Affairs provide required information to Congress.

(2) DHS Form 2140-01 shall be prepared and submitted (after internal OE coordination), as an attachment via electronic mail to Contracts@dhs.gov by the contracting officer or other official designated by the OE.

(3) For those procurements subject to the requirements of Subchapter 3015.3, Source Selection, after the Source Selection Authority has selected the contractor(s) for award, the contracting officer shall be notified immediately so that the DHS Form 2140-01 can be prepared, signed, and transmitted. All personnel are reminded that contract information contained on DHS Form 2140-01 may be competition sensitive.

(4) Unless directed otherwise, contracting officers may proceed with public release of contract awards after the elapse of three business days from the transmission of the Congressional notification form, DHS Form 2140-01 to the DHS Office of Legislative Affairs.

(5) When delay in award of the contract action would result in serious injury (financial or otherwise, such as environmental disaster), the contracting officer, in coordination with the OE's congressional affairs office, shall provide the information required by the DHS form 2140-01 to the DHS Legislative Affairs Office telephonically concurrent with the award notice to the contractor. The telephonic approval shall be documented and placed in the contract file.

Subchapter 3005.4 Release of Information

3005.401 General.

After consultation with legal counsel or personnel from the Freedom of Information Act (FOIA) office (as applicable), the contract file must be documented to provide the rationale for withholding information other than that permitted to be withheld in [\(FAR\) 48 CFR 5.401\(b\)](#).

3005.403 Requests from Members of Congress.

(a) *Individual requests.* The Head of the Contracting (HCA) is delegated this authority. The HCA must consult with the Office of Chief Procurement Officer (OCPO) prior to release.

3005.404 Release of long-range acquisition estimates.

3005.404-1 Release procedures.

(a) and (b) The authorities under [\(FAR\) 48 CFR 5.404-1](#) are delegated to the contracting officer. The contracting officer shall ensure that the conditions set forth at 5.404-1(b) are adequately addressed. Contracting officers must comply with the security requirements set forth under

12-19-03

HSAM 3004.4 concerning the release of classified information.

Subchapter 3005.5 Paid Advertisements

3005.502 Authority.

Publication of paid advertisements must be approved one level above the contracting officer.

CHAPTER 3006 COMPETITION REQUIREMENTS

	3006.101-70	Definitions.
	3006.102	Use of competitive procedures.
	3006.106	Use of competitive procedures.
Subchapter	3006.3	Other Than Full and Open Competition
	3006.302	Circumstances permitting other than full and open competition.
	3006.302-1	Only one responsible source and no other supplies or services will satisfy agency requirements.

	3006.304	Approval of the justification.
Subchapter	3006.5	Competition Advocates
	3006.570	Competition advocates for the procuring activity.

Subchapter 3006.1 Full and Open Competition

3006.101-70 Definitions.

"Agency competition advocate" means an individual designated by the Chief Procurement Officer (CPO) to perform, at a minimum, the functions under [\(FAR\) 48 CFR 6.502\(b\)](#) and is synonymous with "Departmental Competition Advocate" and "Senior Competition Advocate (SCA)."

"Competition advocate for the procuring activity" means the individual who has been designated by the Organization Element (OE) to approve Justifications and Approvals (J & As) for other than full and open competition as permitted by the [\(FAR\) 48 CFR 6.304](#) and to perform the duties and responsibilities assigned under [\(FAR\) 48 CFR 6.502](#). This is synonymous with procuring activity competition advocate.

3006.102 Use of competitive procedures.

(b) If only one responsible offer is received from the release of a competitive solicitation, the contracting officer should attempt to ascertain the reasons for the lack of response and place a written statement in the contract file documenting all conclusions regarding the lack of competition under the solicitation prior to proceeding to award.

Subchapter 3006.3 Other Than Full and Open Competition

3006.302 Circumstances permitting other than full and open competition.

3006.302-1 Only one responsible source and no other supplies or services will satisfy

agency requirements.

(b)(4) The CPO will make the determination.

3006.304 Approval of the justification.

(a) A sample Justification and Approval (J&A) format is provided at Appendix A of this Chapter. Individuals acting in the place of approving officials shall meet the qualification requirements of [\(FAR\) 48 CFR 6.304](#).

(c) Class justifications shall be approved by the same approval authority as for individual justifications (see [\(FAR\) 48 CFR 6.304\(a\)](#) and HSAM 3006.304(a) above).

Subchapter 3006.5 Competition Advocates

3006.501 Requirement.

The OE is authorized to appoint a competition advocate.

3006.502 Duties and responsibilities.

(b)(2) Competition advocates for the procuring activities shall submit an annual OE report to the Departmental Competition Advocate on or before November 1 for the preceding fiscal year (FY) (i.e., the report for FY04 covering October 1, 2003 through September 30, 2004, is due November 2004). The Departmental Competition Advocate shall submit an annual Departmental report to the CPO on or before December 15 on an annual basis.

3006.570 Competition advocates for the procuring activity.

A listing of OE positions designated as competition advocates for the procuring activity (see HSAM 3006.101-70 above) is maintained by CPO. The HCA shall provide any revisions to this listing to CPO within 10 working days of designation.

CHAPTER 3006 – APPENDIX A

JUSTIFICATION FOR OTHER THAN FULL AND OPEN COMPETITION (J & A)

DHS is legally required to promote full and open competition; however, there are statutory authorities that allow for the absence of competition ([See \(FAR\) 48 CFR 6.302](#)). The frequent exceptions to competition are 1. Only one source is available; and 2. The requirement has unusual and compelling urgency. This section provides assistance in the preparation of the J & A. It is the customer's responsibility to fill out this justification. There are twelve elements to the J & A ([See \(FAR\) 48 CFR 6.303-2](#)). Each element is addressed below.

JUSTIFICATION FOR OTHER THAN FULL AND OPEN COMPETITION

Pursuant to the requirements of the Competition in Contracting Act (CICA) as implemented by FAR Subpart 6.3 and in accordance with the requirements of FAR 6.303-1, the justification for the use of the statutory authority under FAR Subpart 6.3 is justified by the following facts and rationale required under FAR 6.303-2 as follows:

- (1) Agency and Contracting Activity—Identification of the agency and the contracting activity, and specific identification of the document as a Justification for other than full and open competition. Example: The Department of Homeland Security, Office of Procurement Operations, proposes to enter into a contract on a basis other than full and open competition.
- (2) Nature and/or description of the action being approved.—Approval for a sole source, follow-on procurement for supplies, services, maintenance, rework, etc. Example: DHS has a requirement on a sole source basis to upgrade and maintain proprietary software at an estimated cost of \$5,520,000.
- (3) Description of Supplies/Services—Describe the supplies or services to be acquired. Provide the estimated total value (including options, if any). Example: The requirement is to provide upgrades and support for XYZ software at a total cost of \$5,520,000. The re-capitalization system software requires upgrades to allow integration of information from BCIS and CBP system with DHS' system. This upgrade will allow DHS to consolidate all the information automatically. The manufacturer is the only one that provides this upgrade and the required support for a smooth transition.

Period		Unit Price	Total
Base Year	12 mo	\$70,000	\$840,000
Option Year 1	12 mo	\$80,000	\$960,000
Option Year 2	12 mo	\$90,000	\$1,080,000
Option Year 3	12 mo	\$100,000	\$1,200,000
Option Year 4	12 mo	\$120,000	\$1,440,000
Total			\$5,520,000

- (4) Identification of Statutory Authority Permitting Other Than Full and Open Competition
Example: The statutory authority permitting other than full and open competition is 10 USC 2304(c) (1) implement by the Federal Acquisition Regulation (FAR) Subpart 6.302-1 entitled “Only One Responsible Source and No Other Supplies or Services Will Satisfy Agency Requirements”.
- (5) Demonstration That the Nature of the Acquisition Require Use of the Authority Cited.
Identify what unique qualifications the proposed contractor has for fulfilling the contract requirements. Example: This requirement is a modification to existing software that was designed by XYZ contractor. The existing software is proprietary and only XYZ may make the modifications.
- (6) Demonstration That the Nature of the Acquisition Requires Use of the Authority Cited.
Identify what unique qualifications the proposed contractor has for fulfilling the contract requirements. Example: This requirement is a modification to existing software that was designed by XYZ contractor. The existing software is proprietary and only XYZ may make modifications and provide maintenance.
- (7) Determination by the Contracting Officer that the Anticipated Cost to the Government will be Fair and Reasonable. You may have information, such as, commercial pricelists or prior acquisition history that will help the contracting officer determine the anticipated cost is fair and reasonable (FAR Part 15.4).
- (8) Description of Market Research. Market Research is required by FAR Part 10. Describe the results of your market research. If no market research was conducted, provide a reason for its absence. Example: The internet was searched for a list of contractors that could provide the software or compatible software that would work with XYZ software. The market research showed that only XYZ could provide the upgrade and there are no other distributors but the manufacturer.
- (9) Any Other Facts Supporting the Use of Other Than Full and Open Competition. You must explain why technical data packages, specifications, SOW, or purchase descriptions are not suitable for full and open competition. Discuss why your requirement cannot be modified to enhance competition. If you are contending only one source can provide your need, you must provide information why you this feature and the extent the Government will be harmed if not acquired. Example: Your requirement is for modification of a software package designed by XYZ Corporation. If XYZ does not do the modification, the new contractor will have to re-write 2/3rds of the existing software to make the modification. In this case, you must provide an estimate of the cost to the Government that would be duplicated and how it was derived. If using exception 6.302-2, data, estimated cost, or other rationale as to the extent and nature of the harm is not all safety concerns only those that maybe life threatening.
- (10) A Listing of the Sources, if Any, That Expressed, in Writing, an Interest in the Acquisition. Example: A synopsis was issued in the CBD on 12/3/2000 requesting that parties express their interest in writing to the contracting officer. Only XYZ Corporation responded.
- (11) A Statement of the Actions, if Any, the Agency May Take to Remove or Overcome Any Barriers to Competition Before Any Subsequent Acquisition for Supplies or Services Required. Include a statement of actions taken or will be taken to increase competition. Example: CG is replacing motors on all boats that are clockwise to counter clockwise

rotation. Only one source can provide clockwise rotation motors. Once replaced, market research shows that a minimum of 20 manufacturers will be able to compete for this requirement. Any subsequent requirements will be procure with counter clockwise rotation.

(12) This justification is accurate and complete to the best of my knowledge and belief.

	3007.503	Policy.

Subchapter 3007.1 Acquisition Plans

3007.101 Definitions.

"Acquisition Plan", as used in this chapter, means a document used to fulfill the acquisition planning requirements of [\(FAR\) 48 CFR Parts 7.105 and 7.107](#). This includes all acquisitions, including acquiring by contracts, orders under task or delivery orders contracts (for example Federal Supply Schedule contracts, Government Wide Agency Contracts (GWACs), etc).

"Acquisition" also includes intra-agency and interagency acquisitions.

"Advance Acquisition Plan (AAP)" means a plan of all anticipated procurements, including interagency agreements, blanket purchase agreements and task orders over \$100,000 for the forthcoming fiscal year. This does not include interagency agreements where the bureau is

acting as the servicing activity. See HSAM 3007.172. The AAP will also be used to compile and publish the annual "Forecast of Contract Opportunities" which is issued by the Office of Small and Disadvantaged Business Utilization (OSDBU).

"Streamlined Acquisition Plan" means an abbreviated version of an Acquisition Plan, as described in this subchapter, Appendix A.

"Plan" means an acquisition plan, or a streamlined acquisition plan.

3007.102 Policy.

(a) Acquisition planning shall be initiated well in advance of the fiscal year in which contract award(s) is necessary. Preliminary acquisition efforts (e.g., defining requirements; issuing market search synopses and draft specification/statements of work; preparing and releasing draft solicitations) may be performed before the plan is completed and approved. If the approved acquisition strategy in the plan is different than what was included in the initial draft RFP, strong consideration should be given to issuing another draft RFP by posting to FedbizOpps.gov to inform industry of the changes.

(b) No synopsis for a solicitation may be released, solicitations issued, or funds transferred within or outside the Department until the plan has been completed and approved.

3007.103 Agency-head responsibilities.

(d) The type of plan to support DHS proposed acquisitions is commensurate with the complexity and dollar value of the procurement involved. DHS's implementation of [\(FAR\) 48 CFR Part 7](#) acquisition planning requirements is as follows:

(1) For acquisitions over the simplified acquisition threshold to \$5 million, procurement forecasting, as described in HSAM 3019, satisfies the requirement for acquisition planning under [\(FAR\) 48 CFR Part 7](#). However, if the acquisition involves contract bundling, a written plan shall be prepared and shall include the acquisition research and analysis requirements of [\(FAR\) 48 CFR Part 7.107](#). Refer to Management Directive (MD) Number 1400, Investment Review Process for additional submittal, review and approval requirements.

(2) For acquisitions over \$5 million but less than \$50 million, except for acquisitions involving construction and other improvements to real property (as defined in (FAR) 48 CFR Part 36), a written streamlined acquisition plan is required. Organizational elements (OEs) may add to the requirements in this streamlined acquisition plan, but cannot delete any requirement. When the acquisition involves contract bundling, the plan shall also include the acquisition research and analysis requirements of [\(FAR\) 48 CFR Part 7.107](#). Refer to MD Number 1400, Investment Review Process for additional submittal, review and approval requirements.

(3) Acquisitions greater than \$50 million require a written acquisition plan which complies with the planning requirements of [\(FAR\) 48 CFR Part 7.1](#) including [\(FAR\) 48 CFR Part 7.106](#), Additional Requirements for Major Systems, unless otherwise explained in the plan. Refer to

MD Number 1400, Investment Review Process, for additional submittal, review and approval requirements. When the acquisition involves contract bundling, the plan shall include the acquisition research and analysis requirements of ([FAR](#)) [48 CFR Part 7.107](#).

(4) Formal Acquisition plans are not required for:

(a) Agreements between DHS elements in which all work is performed by DHS personnel;

(b) Emergency acquisitions (i.e., when the need for the supplies/services is of such an unusual and compelling urgency that the Government would be seriously injured if the supplies/services were not immediately acquired);

(c) Actions subsequent to the initial submittal of a plan which have already been included as part of an approved plan (e.g., exercise of options); and

(d) Procurements conducted under the Small Business Innovative Research Program (SBIR).

(e) Write plans for major systems on a system basis.

(h) The contracting officer must review, approve, and sign the plan and any significant changes to the plan. If more than one OE is involved in the acquisition, the OE or agency preparing the acquisition plan must coordinate the plan with the appropriate individuals within the Department, prior to approval by the contracting officer. The Chief Procurement Officer (CPO) reserves the right to review any acquisition plan and to coordinate with the appropriate departmental officials.

(q) See HSAM 3007.503(e) for procedures regarding functions that are inherently governmental.

3007.103-70 Other officials' responsibilities.

(a) *Acquisition planner/Technical official.* The development of plans, and updates to them, is the responsibility of the acquisition planner (e.g., program manager). The acquisition planner is located within the requiring agency (if outside DHS) or within the requiring OE (if within DHS). The acquisition planner is usually the technical official, and is responsible for providing applicable input for the plan (e.g., quality, quantity, delivery requirements). The acquisition planner, among other functions, shall:

(1) coordinate with all personnel responsible for significant aspects of the plan (e.g., contracting, fiscal, legal, technical, and logistics);

(2) provide input to the plan as necessary;

(3) obtain applicable concurrences;

(4) forward the plan through the approval process; and

(5) review and update the plan.

(c) *Contracting officer* The contracting officer is responsible for providing applicable input for the plan (e.g., type of contract to be used, procurement milestones, set-aside considerations).

(d) *Competition Advocate*. The cognizant competition advocate within the OE is responsible for reviewing streamlined acquisition plans before they are submitted to the approving official when other than full and open competitive procedures are expected to be used.

(e) *HCA*. At the earliest market research and planning stage, the Head of the Contracting Activity (HCA) shall report the intended acquisition of any automated acquisition related systems to the DHS CPO for coordination, collaboration, and approval by the CPO.

3007.104 General procedures.

OE program officials must forecast ongoing and future requirements to ensure applicable projects are covered in Acquisition Plans. Additionally, chiefs of contracting offices should issue instructions establishing procurement lead-times and cut-off dates.

3007.107 Additional requirements for acquisitions involving bundling of contract requirements.

(a) The contracting officer shall conduct market research to determine whether bundling is necessary and justified. See [\(FAR\) 48 CFR Part 10.001\(c\)](#) for additional requirements.

(b) The DHS Deputy Secretary, without redelegation, shall determine that bundling is necessary and justified under the circumstances at [\(FAR\) 48 CFR Part 7.107\(c\)](#). When the contracting officer believes that these circumstances apply to the acquisition, the HCA shall forward to the CPO the following:

(1) A copy of the approved acquisition plan required by [\(FAR\) 48 CFR Parts 7.105](#) and [7.107](#);

(2) A copy of the SBA's representative's (e.g. Procurement Center Representative) concurrence with the bundling of requirements or the decision of the HCA (see HSAM 3019.505); and

(3) A copy of the contracting officer's calculations showing how the expected benefits below the monetary thresholds under [\(FAR\) 48 CFR 7.107\(b\)](#) were derived.

The CPO will review the information. If the CPO proposes to recommend disapproval to DHS Deputy Secretary, the reasons for disapproval will be discussed and resolved with the contracting officer and/or at a managerial level within the OE. The CPO findings on any unresolved issues will be forwarded by the CPO to the Deputy Secretary for a final decision.

3007.170 Waivers.

Waiver requests to the planning requirements in this subchapter shall be submitted through the OE approving official to the CPO for approval. Waiver requests shall contain sufficient detail to clearly explain the basis for the request, procedures to be waived, and any recommended

alternative action.

3007.171 Update, approval, and distribution procedures for streamlined acquisition plans.

(a) *Updates.* The acquisition planner shall review the plan at least once every 12 months.

(1) Update plans when a significant change from the approved plan is contemplated (e.g., a new requirement, change in existing requirements, and change in acquisition strategy including contract type, cost growth, etc.);

(2) If, during a 12-month period, no significant change has occurred, the plan shall be reviewed and the approving official shall certify on the cover page that the plan is accurate and complete and no change is required.

(b) *Approval.* Plans and updates shall be coordinated with and signed (representing concurrence/endorsement of the plan) by the responsible technical official, the contracting officer, and the cognizant competition advocate (if appropriate), before the plan or update is provided to the approving official. The approving official(s) for acquisition plans over \$50 million is the HCA or equivalent. The approving official(s) for streamlined acquisition plans valued over \$5 million but less than \$50 million is the contracting officer, unless otherwise specified in OE procedures.

3007.172 Advance Acquisition Plans

(a) Advance acquisition plans (AAPs), DHS Form 700-15, shall be developed for all acquisitions over \$100,000. Once developed, the AAP may be modified as necessary throughout the acquisition cycle. OEs shall assign an AAP coordinator.

(1) AAPs shall be developed on a fiscal year basis. They shall include at a minimum the fiscal year; the bureau name and the bureau office; proposed award date; the principle contact and their telephone number; length of the contract; a description of the requirement; an estimated value of the planned acquisition, and the availability of the acquisition to be used by the OE, other DHS organizations, or government-wide.

(2) The AAP contains the integrated/coordinated efforts of all personnel engaged in managing the acquisition process in the determination of requirements, finance, strategic planning, development of the technical data package, contracting, and contract administration.

(3) The AAP coordinator shall ensure that the AAP Report is comprehensive and accurate prior to the electronic submission to the CPO. Each AAP shall be submitted electronically to the Office of Chief Procurement Officer (OCPO) as indicated in the AAP Instructions.

Subchapter 3007.2 Planning for the Purchase of Supplies in Economic Quantities

3007.204 Responsibilities of contracting officers.

(a) The contracting officer shall transmit in writing to the cognizant requirements office either

the actual offeror responses or a summary of their salient points.

(b) All transmittals shall request a prompt response which is to indicate whether the acquisition should remain as is, be amended, or cancelled. Before continuing with the negotiation or award of the acquisition, the contracting officer shall decide, in conjunction with the program manager, if continuing outweighs the potential cost saving benefits of delaying the acquisition.

Subchapter 3007.270 Additional Requirements for Acquisitions Involving Strategically Sourced Commodities.

3007.270-1 Scope of subchapter.

(a) Procedures for all requirements, regardless of dollar value, for all strategically sourced commodities listed in MD Number 0730, Strategic Sourcing Group Operations, are described in this subchapter. This subchapter applies to contracting officers, contracting officials and purchase card holders.

(b) This subchapter does not apply to the purchase of commodities that are not strategically sourced.

3007.270-2 Definitions.

“Commodity” means a good or a service or a combination thereof.

“Strategically Sourced” means designated as a commodity type in MD Number 0730 and purchased through a corporate contractual vehicle.

3007.270-3 General Requirements.

(a) Prior to contracting for, ordering against an existing contract, or making a purchase with a purchase card, regardless of dollar value, the contracting officer or ordering official shall review MD Number 0730 for the listing of commodities that are to be strategically sourced.

(b) The contracting officer, ordering official, or purchase card holder shall place an order for any commodity listed in MD Number 0730 in accordance with the instructions provided in the directive, unless a waiver is granted by the Strategic Sourcing Group.

3007.270-4 Review procedures.

Contracting Officers, Ordering Officials, and Purchase Card Holders: Contracting officers, ordering officials and purchase card holders are responsible for ensuring that acquisition of a commodity listed in MD Number 0730, regardless of dollar value, is acquired in an efficient and effective manner. This requires that the contracting officer, ordering official and purchase card holder review the commodities listed in the directive and the definition provided for those commodities. Any purchase of a commodity covered by the commodity’s definition shall be acquired in accordance with the procedures provided in MD Number 0730.

3007.270-5 Waiver Procedures.

Contracting officers, ordering officials, and purchase card holder requesting a waiver to the procedure in MD Number 0730 shall provide a description of the requirement(s) along with a detailed explanation and rational justifying why a wavier is necessary. Waiver requests shall be submitted in writing and addressed to the CPO.

3007.270-6 Procedural documentation requirements.

(b) If granted, the waiver shall be placed in the contract file.

Subchapter 3007.4 Equipment Lease or Purchase

3007.401 Acquisition considerations.

The contracting officer shall make any required comparison and document the contract file.

Subchapter 3007.5 Inherently Governmental Functions

3007.502 Applicability.

While inherently governmental activities require the exercise of substantial discretion, not every exercise of discretion is evidence that an inherently governmental activity is involved. Rather, the use of discretion must have the effect of committing the Government to a course of action when two or more alternative courses of action exist and decision making is not already limited or guided by existing policies, procedures, directions, orders or other guidance that: (1) identify specified ranges of acceptable decisions or conduct; and (2) subject the discretionary authority to final approval or regular oversight by agency officials. An activity may be properly awarded to contract or public reimbursable performance where the offeror does not have the authority to decide on the course of action, but is tasked to develop options or implement that course of action, with agency oversight. The following factors should be considered when deciding whether award to a private sector or public reimbursable provider might effect a transfer of inherently governmental authority:

(a) Congressional legislative restrictions or authorizations.

(b) The degree to which official discretion is or would be limited, i.e., whether the agency, private sector or public reimbursable provider's involvement is or would be so extensive that senior management ability to develop and consider options other than those provided by the provider is inappropriately restricted.

(c) In claims or entitlement adjudication and related services; (i) the finality of any agency, private sector or public reimbursable's action affecting individual claimants or applicants, and whether or not review of the providers action is de novo (i.e., to be effected without the appellate

body's being bound by prior legal rulings or factual determinations) on appeal of the decision to an agency official; (ii) the degree to which agency, private sector or public reimbursable activities may involve wide-ranging interpretations of complex, ambiguous case law and other legal authorities, as opposed to being circumscribed by detailed laws, regulations, and procedures; (iii) the degree to which matters for decision by agency, private sector or public reimbursable providers involve recurring fact patterns or unique fact patterns; and (iv) the discretion to determine an appropriate award or penalty.

(d) The agency, private sector or public reimbursable provider's authority to take action that will significantly and directly affect the life, liberty, or property of individual members of the public, including the likelihood of the provider's need to resort to force in support of a police or judicial function; whether force, especially deadly force, is more likely to be initiated by the provider or by some other person; and the degree to which force may have to be exercised in public or relatively uncontrolled areas. (Note that contracting for guard, convoy security, and plant protection services, armed or unarmed, is not proscribed by these policies.)

(e) The availability of special agency authorities and the appropriateness of their application to the situation at hand, such as the power to deputize private persons.

(f) Whether the commercial activity in question is already being performed by private persons, and the circumstances under which it is being performed by them.

3007.503 Policy.

(e) Contracts cannot be awarded for services/functions that are inherently governmental as defined in [\(FAR\) 48 CFR 7.503](#). The requiring office shall provide the determination with the purchase requests for services (either in whole or in part) which confirms that none of the services to be performed are inherently governmental. Disagreement pertaining to the determination shall be resolved by the Chief of Contracting Officer (COCO) before release of the solicitation.

CHAPTER 3007 - APPENDIX A

Streamlined Acquisition Plan Template

This streamlined acquisition plan has been designed to be used in conjunction with and to conform to the requirements of [\(FAR\) 48 CFR 7.105](#). FAR-based numbering has been retained and reserved entries may be completed at the option of the approving official, as defined in HSAM 3007.171.

(2) **Applicable conditions.** State all significant conditions affecting the acquisition, such as--

(i) Requirements for compatibility with existing or future systems or programs; and

(ii) Any known cost, schedule, and capability or performance constraints.

(3) **Cost.** Set forth the established cost goals for the acquisition and the rationale or tools supporting them.

(4) **Capability or performance.** Specify the required capabilities or performance characteristics of the supplies or the performance standards of the services being acquired and state how they are related to the need. Acquisition plans for service contracts shall describe the strategies for implementing performance-based contracting methods or shall provide rationale for not using those methods (see Subpart 37.6).

(5) and (6) **Reserved.**

Address the extent and results of the market research and indicate their impact on the various elements of the plan (see [\(FAR\) 48 CFR Part 10](#)).

(2) **Competition.** (i) Describe how competition will be sought, promoted, and sustained throughout the course of the acquisition. When effective subcontract competition is both feasible and desirable, describe how such subcontract competition will be sought, promoted, and sustained throughout the course of the acquisition. Identify any known barriers to increasing subcontract competition and address how to overcome them. If full and open competition is not contemplated, cite the authority in 6.302, discuss the basis for the application of that authority, identify the source(s), and discuss why full and open competition cannot be obtained.

(3) **Source-selection procedures.** Discuss the source-selection procedures for the acquisition, including the timing for submission and evaluation of proposals, and the relationship of evaluation factors to the attainment of the acquisition objectives (see Subpart 15.3).

(4) **Contracting considerations.** For each contract contemplated, discuss contract type selection (see Part 16); use of multiyear contracting, options, or other special contracting methods (see Part 17); any special clauses, special solicitation provisions, or FAR deviations required (see Subpart 1.4); whether sealed bidding or negotiation will be used and why; whether equipment will be acquired by lease or purchase (see Subpart 7.4) and why; and any other contracting considerations.

(5) to (15) **Reserved.**

(16) **Environmental and energy conservation objectives.** Discuss all applicable environmental and energy conservation objectives associated with the acquisition (see Part 23), and any environmentally-related requirements to be included in solicitations and contracts.

3015.303-70 Responsibilities (Competitive Sourcing).

(a) Competitive Sourcing. A solicitation shall not be issued that increases, conveys, or places additional risk on one offeror over another; violates industry service or service grouping norms; omits statutory obligations; or regulatory requirements. The solicitation shall be open to innovative approaches for accomplishing the work and, while it may offer the use of existing Government facilities and equipment, the DHS Chief Procurement Officer (CPO) shall approve mandatory use. The OE Competitive Sourcing and Privatization Official (CSPO) shall: (1) determine if existing Government assets are to be provided to all offerors and, if only provided to the Most Efficient Organization, (2) justify the long-term benefits to the Government in the Agency Management Plan.

Subchapter 3015.4 Contract Pricing

3015.400-70 Scope of subpart.

Whenever agreement on prices is necessary for prime contracts, contract modifications, and any order issued under a contract, the requirements of [\(FAR\) 48 CFR 15.4](#) and this subchapter apply unless specifically excluded.

3015.404 Proposal analysis.

3015.404-4 Profit.

(b) *Policy.*

(1) Pursuant to [\(FAR\) 48 CFR 15.404-4](#), DHS has established a structured approach for determining the profit or fee objective.

(i) The contracting officer shall use the DHS structured approach (DHS Form 700-17, Weighted Guidelines Profit/Fee Objective) or a form substantially similar if authorized according to OE procedures, to determine the profit or fee objective before conducting negotiations for those acquisitions that require cost analysis. DHS Form 700-17 shall be made a part of the

prenegotiation memorandum.

(ii) The contracting officer may use an alternate structured approach in lieu of the weighted guidelines for the acquisitions listed below. The rationale for profit or fee determined by the alternate structured approach shall be substantiated in a manner similar to that used in the weighted guidelines method.

- (A) Architect-engineering contracts;
- (B) Management contracts for operation and/or maintenance of Government facilities;
- (C) Construction contracts;
- (D) Contracts primarily requiring delivery of material supplied by subcontractors;
- (E) Termination settlements;
- (F) Cost-plus-award-fee contracts; and
- (G) Contracts having unusual pricing situations.

(d) Profit-analysis factors. (1) Appendix A, Structured Approach for Profit or Fee Objective, cites elements which should be considered when completing DHS Form 700-17.

(2) *Additional factors*. Factors to be considered for nonprofit organizations also are contained in Appendix A.

3015.404-70 Independent Government Cost Estimate.

(a) The requiring office shall provide an Independent Government Cost Estimate (IGCE) for proposed negotiated acquisitions, unless exempted by HSAM 3015.404-70(c).

(b) The IGCE should reflect how the estimate was derived by delineating such costs as the major labor categories, materials, travel, consultant, computer usage, etc. Any previous cost experience the Government has had in acquiring the same or similar items also should be provided with the IGCE.

(c) Unless the contracting officer requires otherwise, an IGCE is not required for the following:

- (1) proposed awards using simplified acquisition procedures under [\(FAR\) 48 CFR Part 13](#);
- (2) administrative modifications such as incremental funding;
- (3) modifications to exercise fixed priced options;
- (4) modifications to resolve cost overruns under cost reimbursement contracts;
- (5) proposed acquisitions for items that meet the commercial item definition in [\(FAR\) 48 CFR Part 2](#); and
- (6) when prices for the supplies or services are set by law or regulation.

3015.406 Documentation.

3015.406-170 Prenegotiation objectives.

(a) The Government's prenegotiation objective shall be in writing and have substance, rationale, and detail sufficient to explain to a third party how the overall reasonableness of the proposed prices were determined and how the objective represents a fair and reasonable amount.

(b) OEs shall establish procedures for the review and approval of the prenegotiation objective which shall be documented in a Prenegotiation Memorandum (PM). The PM shall be signed by the contracting officer, approved at a level commensurate with the value and complexity of the proposed acquisition, and be in consonance with the requirements of HSAM 3004.70.

3015.406-370 Documenting the negotiation.

(a) See HSAM 3004.70 for the review and approval of the document described at [\(FAR\) 48 CFR 15.406-3](#).

3015.407-4 Should-cost review.

(b) *Program should-cost review.*

(4) The should-cost review team report shall include the following:

(a) Results of the review, including proposed versus recommended hours, tasks, or issues. Discuss each cost element in terms of review method, finding, and proposed or recommended cost. Do not accumulate the dollar value of individual recommendations into a recommended total price. Indicate team members available to support negotiations;

(b) Improvement recommendations, including long and short term benefits, to be passed on to the contractor or the Government, including monitoring approach;

(c) A list of lessons learned having value to later should-cost teams; and

(d) Attachments, including letters recommending changes, implementing plans, prenegotiation objectives, and price negotiation memorandum.

CHAPTER 3015 - APPENDIX A**STRUCTURED APPROACH FOR PROFIT OR FEE OBJECTIVE****INTRODUCTORY REMARKS.**

When using the DHS Form 700-17, Weighted Guidelines Profit/Fee Objective, the contracting officer must categorize the acquisition as a manufacturing, research and development (R&D) or a services effort. To determine to which category a particular acquisition belongs, the contracting officer must rely on the nature of the work to be performed. When acquisitions involving R&D and services require a significant amount of facilities for efficient contract performance (as determined by the contracting officer), the manufacturing weighted guidelines method may be appropriate. Similarly, certain contracts for the manufacture of small quantities of high technology supplies and equipment may not require a significant amount of facilities. In these cases, an R&D classification may be appropriate.

In determining profit or fee, the tax posture of the business entity is certainly recognized. A fair and reasonable management fee to a non-profit organization with a tax-exempt status is considerably lower than a profit/fee to a commercial enterprise with a taxable status.

Non-Profit Organizations.

The following applies to non-profit organizations:

1. As used in this subchapter, non-profit organizations are defined as those business entities organized and operated exclusively for charitable, scientific, or educational purposes; of which no part of the net earnings accrue to the benefit of any private shareholder or individual; of which no substantial part of the activities include carrying on propaganda, or otherwise, on behalf of any candidate for public office; and which are exempt from Federal income taxation under Section 501 of the Internal Revenue Code.

2. When the Weighted Guidelines Method for arriving at a profit/fee position is used for non-profit organizations, the contracting officer must make the following adjustments:

a. The weight ranges for "Cost risk" (Item 14 on the DHS Form 700-17) must be replaced with 1 to 0.

b. The Total Profit/Fee Objective (Item 20 on the DHS Form 700-17) must be reduced by up to 1% for manufacturing type efforts and up to 3% for R&D or Services type efforts.

Commercial Organizations.

For the purposes of this subchapter, HS utilizes the description from [\(FAR\) 48 CFR 31.103](#) to describe commercial organizations.

I. CONTRACTOR EFFORT.

This factor takes into account what resources are necessary and what the contractor must do to meet the contract performance requirements. Evaluation of this factor and the assignment of weights on the DHS Form 700-17 requires analyzing the cost content of the proposed contract in the following areas:

A. Material acquisition (e.g., subcontracted items, purchased parts, and other material).

1. Consider the managerial and technical efforts necessary for the prime contractor to administer subcontracts and select subcontractors, including efforts to break out subcontracts from sole sources through the introduction of competition.

2. Consider whether the contractor's purchasing program makes a substantial contribution to the performance of a contract through the use of subcontracting programs involving many sources; new complex components, systems, or subsystems; and close surveillance by the prime contractor.

B. Direct labor (e.g., engineering, service, manufacturing, and other labor).

1. Analysis of the various items of cost must include evaluation of the comparative quality and level of the engineering talents, manufacturing and service skills, and experience to be employed. In evaluating labor for the purpose of assigning profit weights, consideration must be given to the amount of notable scientific talent, unusual or scarce engineering talent needed, in contrast to journeyman engineering effort or supporting personnel. Higher weights are normally assigned to engineering, professional, or highly technical skill levels and lower weights to semiprofessional or other skill levels.

2. The variety of engineering, manufacturing and other types of labor skills required and the contractor's manpower resources for meeting these requirements must be considered.

C. Overhead and general management (general and administrative (G&A)).

When analyzing overhead and G&A, consider the makeup of these expenses and how much they contribute to contract performance. If the contractor proposes a single indirect cost rate, the contracting officer must breakout the composite rate or contact the auditor to determine what is in the overhead and G&A expense pools. This information will assist in determining the appropriate weights for overhead and G&A on the DHS Form 700-17.

D. Other costs.

Include all other direct costs associated with contractor performance under this item. This includes airfare, lodging, computer support, etc. The assignment of a weight on the DHS Form 700-17 for this factor must be based on the nature of these costs and how much they contribute to contract performance.

II. CONTRACTOR RISK.

The degree of cost risk assumed by the contractor should influence the amount of profit/fee

anticipated. Consider the following when determining a weight for cost risk:

A. Contract type.

The degree of cost risk is related to the selection of contract type. For example, if a portion of the risk has been shifted to the Government through cost-reimbursement, or other risk reducing measures, the weight assigned to this factor should be less than acquisitions where the contractor assumes most or all of the risk. This is particularly evident when using time-and-material and labor-hour contracts priced on a time and material basis. These contract types must be considered to be cost-plus-fixed-fee contracts for the purpose of establishing a profit weight in the evaluation of the contractor's assumption of cost risk.

B. Subcontracting program.

The contractor's subcontracting program may have a significant impact on the contractor's acceptance of risk under a particular contract type. Analysis is necessary to determine if real cost risk has been transferred to a subcontractor. If this is the case, the contract cost risk weight assigned may be below the range that would normally be assigned.

C. Definitization.

For procurement actions that involve definitization of a letter contract, unpriced change orders, etc., where partial performance has occurred, evaluate the effect on total contract cost risk. If it is determined that the total amount of cost risk has been effectively reduced as a result of the partial performance, a lower weight may be appropriate. In addition, evaluate the type of work performed (e.g., complexity) and the type of work remaining to ensure an equitable weight assignment.

III. FACILITIES INVESTMENT.

DHS Form 700-18, Contract Facilities Capital and Cost of Money or a form substantially similar if authorized according to OE procedures, is used to determine the capital employed and cost of money amounts to be entered on the DHS Form 700-17, Weighted Guidelines.

A. Utilization.

To evaluate how facilities contribute to the profit objective requires knowledge of the level of facilities utilization needed for contract performance, the source and financing of the required facilities, and the overall cost effectiveness of the facilities offered. Contractors furnishing their own facilities that significantly contribute (as determined by the contracting officer) to lower total contract costs generally receive additional profit/fee. Conversely, contractors that rely on the Government to provide or finance needed facilities normally receive a correspondingly lower profit/fee. The following factors should also be considered:

1. The productivity improvements resulting from the facilities capital investment including the economic value of the facilities capital (e.g., physical age, undepreciated value, idleness, and expected contribution to future Government needs).

2. The degree to which the capital investment has direct, identifiable, and exceptional benefits to the Government, such as: new investments in state-of-the-art technology which reduce acquisition cost or yield other tangible benefits such as improved product quality or accelerated deliveries, or investment in new equipment for R&D applications.

B. New Investment.

To assist in evaluating *new* investment, the contracting officer should request the contractor to submit reasonable evidence that the new facilities investment will result in benefits to the Government.

IV. SPECIAL FACTORS.

A. Productivity.

The purpose of this factor is to recognize a prospective contractor's investment in modern cost-reducing facilities and other improvements in efficiency. This factor is applied when the acquisition is a follow-on manufacturing effort, actual cost data are available to establish a baseline, and changes in item configuration are not large enough to invalidate price comparability. The dollar amount inserted under the measurement base on the DHS Form 700-17 is based on the estimated cost reduction that can be attributed to productivity gains.

B. Independent development.

The purpose of this factor is to recognize independent research and development on the part of the prospective contractor pertaining to the end item being procured. To determine the appropriate weight to assign this factor on the DHS Form 700-17, it is important to evaluate whether the development cost was recovered directly or indirectly from Government sources. This factor is applied when the item is important to the advancement of the DHS mission and the prospective contractor demonstrates initiative in determining the need and application of the developed item.

C. Other.

1. *Socioeconomic programs.* This factor covers a number of special circumstances or particular acquisitions. It relates to the prospective contractor's participation in Federal socioeconomic programs. In addition to providing a reward for an unusual initiative in supporting Government socioeconomic programs, failure or unwillingness on the part of the prospective contractor to support these programs should be viewed as evidence of poor performance for the purpose of establishing this profit/fee objective factor.

2. *Performance.* The purpose of this factor is to evaluate the prospective contractor's past and present performance in such areas as: product quality, meeting specifications and contract schedules (including the administrative aspects of performance), efficiency in cost control (including the need for and reasonableness of costs incurred) especially under cost reimbursement contracts, accuracy and reliability of previous cost estimates, timely processing

12-19-03

of changes, standards of good workmanship, history for reasonable and cooperative behavior and commitment to customer satisfaction, and the prospective contractor's business-like concern for the interest of the customer.

Subchapter 3023.4 Use of Recovered Materials

3023.400 General.

The DHS's *Affirmative Procurement Program (APP) for Products Containing Recovered Materials* required by the Resource Conservation Act of 1976 (RCRA), as amended, and [Executive Order 13101](#) is found at Appendix A to this Chapter. The purpose of the DHS Affirmative Procurement Program is to foster markets for recovered materials by maximizing the Federal Government's recycled products. A secondary objective is to reduce the amount of solid waste requiring disposal through the purchase and use of products containing recovered materials. Procedures for purchases under the micro-purchase threshold and for consolidating and reporting data estimates are also located in the APP.

CHAPTER 3023 – APPENDIX A**DEPARTMENT OF HOMELAND SECURITY AFFIRMATIVE
PROCUREMENT PROGRAM FOR RECOVERED MATERIALS**

I. General Policy. DHS has adopted the Environmental Protection Agency (EPA) minimum content standards in implementing this affirmative procurement program (APP). These minimum content standards specify the minimum recovered materials content an item must contain to be considered for an award. The EPA recommended minimum content standards were set forth in the Recovered Materials Advisory Notice (RMAN) published in the Federal Register, Vol 60, on May 1, 1995 and updates are found on the [EPA RMAN list](#). A list of the EPA designated items and EPA's RMAN guideline for the minimum recovered material content standards is available from the EPA website.

A. It is the policy of DHS to acquire designated items with recovered materials to the greatest extent practicable, to promote cost effective waste reduction and recycling of reusable materials from wastes generated by Federal activities, and to encourage economically efficient market demand for designated items produced using recovered materials by directing the immediate implementation of a cost effective procurement preference program favoring the purchase of such items.

(1) EPA's procurement guidelines only apply to an agency whose total annual purchases (for each designated item) equals \$10,000 or more, or when the procuring agency purchased \$10,000 or more of the item (or of a functionally equivalent item) during the preceding year. This \$10,000 threshold includes micro-purchases. Thus, because the procurement requirements identified in EPA's guidelines apply to DHS as a whole, all OE program offices, operations offices, sites, and applicable contractors shall be responsible for implementing the procurement requirement outlined in both this document and EPA's guidelines. Agencies and supply centers are required to report purchases made from non-Governmental (commercial) sources. Forms will be furnished to OE procurement offices by DHS, Office of the Chief Procurement Officer. Accordingly, when submitting agency annual reports under RCRA, OE's shall report all purchases of items covered in this document and the percentage of recovered material required to be reported by FAR clause 52.223-9 to DHS, Office of the Chief Procurement Officer. Individual OE statistics will be combined into one DHS response to the Office of the Federal Environmental Executive and the Office of Federal Procurement Policy.

(2) Contractors: DHS's APP shall only apply to such contractors as long as appropriate provisions are contained in the contracts. It is the responsibility of each OE to ensure that appropriate existing contracts are revised to include APP compliance provisions, and appropriate new contracts contain APP compliance provisions ((FAR) 48 CFR 52.204-4, 52.223-4, 52.223-8, 52.223-9). Nothing in DHS's APP would preclude a DHS contractor from voluntarily implementing an APP until such time as provisions are incorporated into the contract.

(3) State and Local Agencies: State and local agencies purchasing more than \$10,000 worth of particular EPA-designated item in a year, and using some Federal funds for these purchases, are

required to establish an APP for those particular items. The APP must include the four elements specified by Section 6002 of RCRA: (1) a preference program; (2) a promotion program; (3) estimation, certification, and verification procedures; and (4) procedures for annual review and monitoring. For any questions concerning the applicability of the APP to Federal, State, or local agencies, and government contractors and private party recipients of Federal loans, grants, or funds, contact the Chief, Administrative Services.

B. It is DHS policy to procure 100 percent of EPA-designated products with recovered material, unless the item cannot be acquired competitively within a reasonable time frame; meet appropriate performance standards; or procured at a reasonable price. This policy includes the purchase of items at or below the micro purchase level. However, *tracking micro purchases of EPA-designated items is not required* as an exemption (as specified at [\(FAR\) 48 CFR 23.405](#)) from establishing an APP will not be requested by DHS.

C. Special requirements apply when procuring certain items. These are:

(1) DHS requires 100 percent of purchases of printing and writing paper to meet or exceed one of the following minimum content standards: For high-speed copier paper, offset paper, forms bond, computer printout paper, carbonless paper, file folders, white woven envelopes, writing and office paper, book paper, cotton fiber paper, and cover stock, the minimum content standard must be no less than 30 percent post consumer materials; and

(2) Virgin material or supplies composed of or manufactured using virgin material cannot be required unless compelled by law or regulation or unless virgin material is vital for safety or meeting performance requirements of the contract.

II. Affirmative Procurement Preference Program.

A. When formulating requirements, DHS requiring and contracting offices are to employ acquisition strategies that maximize the utilization of environmentally preferable products and services (EPA guidance for utilizing environmentally preferable products and services is found at <http://www.ofee.gov/>); maximize the utilization of energy-efficient products; eliminate or reduce the generation of hazardous waste and the need for special handling, storage, treatment, and disposal; promote use of nonhazardous and recovered materials; realize life-cycle cost savings; promote cost-effective waste reduction when creating plans, drawings, etc., authorizing material substitutions, extensions of shelf-life, and process improvements; and consider the use of biobased products. Organizational Elements must establish programs that support the DHS APP. Refer to DHS MD 5130, Department of Homeland Security Waste Prevention, Recycling and Acquisition; and MD 5300, Energy Management Program for guidelines on preference programs.

B. [EPA Designated Items](#). EPA designates certain items which must meet the standard for recovered material content. An official list of these is found at 40 CFR 247.10-247.17. A list of these items is also located on the EPA website.

C. Future EPA Designated Items. This APP will be modified, as necessary; to incorporate future [EPA designated items](#) and minimum content standards.

D. Recovered Materials Determination Form. In making the determinations required in HSAM 3023.4, program offices shall use the format or substantially the same format as shown in attachment 1. This form must be signed by the cognizant program official and maintained in the procurement file. In developing plans, drawings, work statements, specifications, or other product descriptions, program offices shall consider the following factors: elimination of virgin material requirements, use of recovered materials, reuse of products, life-cycle cost, recyclability, use of environmentally preferable products, waste prevention (including toxicity reduction or elimination), and ultimate disposal, as appropriate. These factors should be used in acquisition planning for all procurements and in the evaluation and award of contracts (i.e., the bidder most able to cost-effectively satisfy the recovered material content specifications as well as the performance/design specifications outlined in the solicitation document).

E. Request for Waiver. To request a waiver from the purchase of [EPA designated items](#) containing other than recovered materials, program offices and contracting officers shall use the format or substantially the same format as shown in Attachment 2. This form must be signed by the cognizant program official and maintained in the procurement file.

F. Federal Sources of Recycled and Environmental Products. Thousands of recycled and environmental products are available to procuring agencies through established Federal supply sources, and new items are continuously being added. Federal sources of EPA-designated items and other recycled and environmental products include the General Services Administration (GSA) Federal Supply Service (FSS), Government Printing Office (GPO) and the Defense General Supply Center (DGSC). GSA FSS publishes various documents to assist in identifying and requisitioning recycled and environmental products. These documents are available on the [GSA website](#) and are available through Centralized Mailing List Service (CMLS), P.O. Box 6477, Fort Worth, TX 76115, and phone number: (817) 334-5215, fax number (817) 334-5227.

G. Other Recycled and Environmentally Preferable Products. EPA's guidelines may not reflect those procured products or services most often used by DHS. Procurement originators are encouraged to request, procure, and use other products containing recovered materials in addition to those specified in this APP. At the discretion of the OE, items other than EPA designated items for which recovered material content must be specified may be adopted.

H. Life-Cycle Cost Analysis. [OFPP Policy Letter 92-4](#) required Federal agencies to use life-cycle cost analysis, wherever feasible and appropriate, to assist in selecting products and services. At this time, life-cycle cost information for [EPA designated items](#) is not available. Until such information is developed and issued, OEs shall rely on minimum content standards of preference standards in [EPA's guidelines \(RMAN\)](#).

III. Recovered Materials Promotion Program.

A. the DHS preference for recovered materials shall be incorporated into all applicable solicitations. This shall be accomplished by including explicit recovered material preference

standards for EPA-designated items in appropriate solicitations for bids, statements of work, and during contract negotiations.

B. Each DHS procuring office shall promote the DHS APP within its operation. The promotional program shall include at least the following:

- (1) Procuring offices shall include in their CBD announcements a statement of the recycling and recovery requirements of the solicitation, if applicable;
- (2) Contracting officers should seek from the marketplace and annotate their sources/bidders lists with information on vendors offering recovered products and services;
- (3) Contracting officers should encourage each contractor under a value engineering program to look for savings opportunities which could be proposed; and
- (4) Contracting officers shall promote the fact that they are seeking to buy recovered materials at pre-bid and pre-proposal conferences, where applicable.

IV. Procedures for Vendor Estimation and Certification.

A. Estimation. DHS's minimum content standards for [EPA designated items](#) shall be specified in the statement of work. Vendors responding to solicitations for [EPA designated items](#) must meet the minimum content standards; therefore a separate estimate from the vendor regarding the percentage of recovered materials in the product is not required unless the product exceed the minimum content standards specified.

B. Certification. Vendors/offerors are responsible for: (1) providing written certification to the contracting officer that their products meet minimum content standards, (2) maintaining copies of certification documents, and (3) producing copies of the written certification upon request. (See [\(FAR\) 48 CFR 23.406](#) for solicitation provisions and contract clauses.)

C. Verification. COCOs shall periodically review vendor certification documents as part of their review and monitoring processes. Such review shall enable DHS's Environmental Executive to verify DHS's compliance with [Executive Order 13101](#).

D. Exclusions. Federal supply sources such as GSA, GPO, and DGSC have established their own estimation, certification, and verification procedures for EPA-designated items. Therefore, there is no requirement to conduct independent estimation, certification, and verification procedures.

V. Annual Review and Reporting.

A. Federal agencies are required, on an annual basis, to review the effectiveness of its affirmative procurement program and provide reports to the Federal Environmental Executive and to OFPP.

B. OFPP has devised a standard format for use in reporting affirmative procurement program effectiveness. The report shall be transmitted to the Office of the Chief Procurement Officer for

consolidation into a Departmental response, which has historically been due in December of each year. However, since the reporting format and due date of the report has changed over the years, The Office of the Chief Procurement Officer will provide each OE an updated reporting format, if necessary, and the response date in writing in sufficient time for the OEs to respond in a timely manner.

VI. **Waste Prevention.** [Executive Order 13101](#) encourages Federal agencies to implement waste prevention techniques, such as electronic transfer and double-sided copying, so that annual expenditures for recycled printing and writing paper do not exceed current annual budgets for paper products as measured by average annual expenditures. To this end, it DHS policy that a contractor submitting paper documents relating to an acquisition, should, if possible, submit those documents printed/copies double-sided on recycled paper (see [\(FAR\) 48 CFR 4.303](#)). The clauses at [\(FAR\) 48 CFR 52.204-4](#), Printed or Copied Double-Sided on Recycled Paper, shall be inserted in solicitations and contracts greater than the simplified acquisition threshold

DEFINITIONS

Sec. 201. "Environmentally preferable" means products or services that have a lesser or reduced effect on human health and the environment when compared with competing products or services that serve the same purpose. This comparison may consider raw materials acquisition, production, manufacturing, packaging, distribution, reuse, operation, maintenance, or disposal of the product or service.

Sec. 202. "Executive agency" or "agency" means an executive agency as defined in [5 U.S.C. 105](#). For the purpose of this order, military departments, as defined in [5 U.S.C. 102](#), are covered under the auspices of the [Department of Defense](#).

Sec. 203. "Postconsumer material" means a material or finished product that has served its intended use and has been discarded for disposal or recovery, having completed its life as a consumer item. "Postconsumer material" is a part of the broader category of "recovered material."

Sec. 204. "Acquisition" means the acquiring by contract with appropriated funds for supplies or services (including construction) by and for the use of the Federal Government through purchase or lease, whether the supplies or services are already in existence or must be created, developed, demonstrated, and evaluated. Acquisition begins at the point when agency needs are established and includes the description of requirements to satisfy agency needs, solicitation and selection of sources, award of contracts, contract financing, contract performance, contract administration, and those technical and management functions directly related to the process of fulfilling agency needs by contract.

Sec. 205. "Recovered materials" means waste materials and by-products that have been recovered or diverted from solid waste, but such term does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process (42 U.S.C. 6903 (19)).

Sec. 206. "Recyclability" means the ability of a product or material to be recovered from, or otherwise diverted from, the solid waste stream for the purpose of recycling.

Sec. 207. "Recycling" means the series of activities, including collection, separation, and processing, by which products or other materials are recovered from the solid waste stream for use in the form of raw materials in the manufacture of new products other than fuel for producing heat or power by combustion.

Sec. 208. "Waste prevention" means any change in the design, manufacturing, purchase, or use of materials or products (including packaging) to reduce their amount or toxicity before they are discarded. Waste prevention also refers to the reuse of products or materials.

Sec. 209. "Waste reduction" means preventing or decreasing the amount of waste being generated through waste prevention, recycling, or purchasing recycled and environmentally preferable products.

Sec. 210. "Life cycle cost" means the amortized annual cost of a product, including capital costs, installation costs, operating costs, maintenance costs, and disposal costs discounted over the lifetime of the product.

Sec. 211. "Life cycle assessment" means the comprehensive examination of a product's environmental and economic aspects and potential impacts throughout its lifetime, including raw material extraction, transportation, manufacturing, use, and disposal.

Sec. 212. "Pollution prevention" means "source reduction" as defined in the [Pollution Prevention Act](#) of 1990 (42 U.S.C. 13102), and other practices that reduce or eliminate the creation of pollutants through: (a) increased efficiency in the use of raw materials, energy, water, or other resources; or (b) protection of natural resources by conservation.

Sec. 213. "Biobased product" means a commercial or industrial product (other than food or feed) that utilizes biological products or renewable domestic agricultural (plant, animal, and marine) or forestry materials.

Sec. 214. "Major procuring agencies" shall include any executive agency that procures over \$50 million per year of goods and services.

Affirmative Procurement Program (APP) - a program assuring Guideline items composed of recovered materials will be purchased to the maximum extent practicable, consistent with Federal law and procurement regulations. [RCRA, section 6002]

Case-by-Case Procurement - open competition for contract awards among products made of virgin and recovered materials with preference being given to the latter (vice identifying minimum content standards required). [RCRA, section 6002]

Certification - provided by offerors/bidders/vendors, it is written documentation certifying the percentage of recovered materials contained in products or to be used in the performance of the contract is at least the amount required by applicable specifications or other contractual requirements. Certification on multi-component or multi-material products should verify the

percentage of post consumer waste and recycled material contained in the major constituents of the product. [[EPA Guidelines](#)]

Cost-Effective Procurement Preference Program - a procurement program favoring more environmentally-sound or energy-efficient products and services than other competing products and services, where price and other factors are equal. [[OFPP Policy Letter 92-4](#)]

Designated Item - an available EPA guideline item or category of items, made with recovered material, advancing the purpose of RCRA when purchased. [RCRA, section 6002]

Energy-efficient product – a product in the upper 25 percent of efficiency for all similar products or, if there are applicable Federal appliance or equipment efficiency standards, a product that is at least 10 percent more efficient than the minimum Federal standard

Environmentally Preferable - "Environmentally preferable" means products or services that have a lesser or reduced effect on human health and the environment when compared with competing products or services that serve the same purpose. This comparison may consider raw materials acquisition, production, manufacturing, packaging, distribution, reuse, operation, maintenance, or disposal of the product or service. [[EO 13101](#)]

Environmentally-Sound - a product or service less damaging to the environment when used, maintained, and disposed of in comparison to a competing product or service. [[OFPP Policy Letter 92-4](#)]

Estimation - quantitative determination made by vendors of the total percentage of recovered material contained in offered products. Estimations should be based on historical or actual percentages of recovered materials in products sold in substantial quantities to the general public or on other factual basis. EPA recommends procuring agencies maintain records of these documents for three years by product type, quantity purchased, and price paid. [[EPA Guidelines](#)]

Federal Supply Source - any supply source managed by a Federal agency such as the General Services Administration, Government Printing Office, or Defense General Supply Center.

Minimum Content Standard - the minimum recovered material content specifications set to assure the recovered material content required is the maximum available without jeopardizing the intended item use or violating the limitations of the minimum content standards set forth by EPA's guidelines. [RCRA, section 6002]

Performance Specification - a specification stating the desired product operation or function but not specifying its construction materials. [[EPA Guidelines](#)]

Post consumer Waste - a material or product, discarded for disposal after passing through the hands of a final user, having served its intended purpose. Post consumer waste is part of the broader category "recycled material." [[OFPP Policy Letter 92-4](#) and 49 CFR 247.101(e)]

Practicable - capable of performing in accordance with applicable specifications, available at a reasonable price and within a reasonable period of time, and while a satisfactory level of competition with other products is being maintained. [[EPA Guidelines](#)]

Preference - when two products or services are equal in performance characteristics and price, the Government, in making purchasing decisions, will favor the more environmentally-sound or energy-efficient product. [[OFPP Policy Letter 92-4](#)]

Preference Standard - the highest practicable minimum content standards for products. When minimum content is impractical to calculate, preference is for the presence of a recovered material or an environmentally-preferable trait (i.e., retread tires).

Procurement Guidelines - regulations issued by EPA pursuant to section 6002 of RCRA: (1) identifying items produced (or can be produced) with recovered materials and where procurement of such items will advance the objectives of RCRA; and (2) providing recommended practices for the procurement of such items. [RCRA, section 6002]

Procuring Agency - any Federal or State agency, or agency of a state's political subdivision using appropriated Federal funds for such procurement, or any person contracting with any such agency with respect to work performed under such contract. [[EPA Guidelines](#)]

Recycled Material - a material utilized in place of raw or virgin material in product manufacturing consisting of materials derived from post consumer waste, industrial scrap, material derived from agricultural wastes, and other items, all of which can be used in new product manufacture. [[EPA Guidelines](#) and [OFPP Policy Letter 92-4](#)]

Solid Waste - garbage, refuse, sludge, and other discarded solid materials, including those from industrial, commercial, and agricultural operations, and from community activities. This *excludes* solids or dissolved materials in domestic sewage or other significant pollutants in water resources, such as silt, dissolved or suspended solids in industrial waste water effluents, dissolved materials in irrigation return flow, etc. [[EPA Guidelines](#)]

Specification - a clear and accurate description of the technical requirements for materials, products, or services including the minimum requirement for materials' quality and construction and any equipment necessary for an acceptable product. In general, specifications are in the form of written descriptions, drawings, prints, commercial designations, industry standards, and other descriptive references. [[EPA Guidelines](#)]

Unreasonable Price - when recycled product cost is greater compared to virgin material cost. (Unreasonable price is not a factor when minimum content standards are specified in the statement of work/procurement request, because price estimates will only be obtained from vendors who can supply products meeting recovered material content requirements.)

Verification - procedures used by procuring agencies to confirm both vendor estimates and certifications of the percentages of recovered material contained in the products supplies to them or to be used in the performance of a contract. [[EPA Guidelines](#)]

3036.201 Evaluation of contractor performance.

(a)(4) The Head of Contracting Activity (HCA), without redelegation, must establish procedures which ensures that fully qualified personnel prepare and review performance reports.

(c)(1) Contracting officers must determine the appropriate distribution of the reports.

3036.203 Government estimate of construction costs.

(a) The Government estimate must be designated "For Official Use Only" unless the nature of the information therein requires a security classification, in which event it shall be handled in accordance with applicable security regulations. The "For Official Use Only" designation must be removed only when the estimate is made public in accordance with the instructions below.

(b) If the acquisition is by sealed bidding, a sealed copy of the detailed Government estimate must be filed with the bids until bid opening. After the bids are read and recorded, the "For Official Use Only" designation must be removed and the estimate read and recorded in the same detail as the bids.

(c) If the acquisition is by negotiation, the following procedures apply:

(1) The overall amount of the Government estimate must not be disclosed prior to award;

(2) At the time of award, the "For Official Use Only" designation on the Government estimate must be removed; and

(3) After award, the Government estimate may be revealed, upon request.

3036.206 Liquidated damages.

Liquidated damages provisions are generally appropriate in construction contracts in accordance with the provisions of [\(FAR\) 48 CFR 11.500](#).

3036.208 Concurrent performance of firm-fixed-price and other types of construction contracts.

The Chief of the Contracting Office (COCO) is delegated the authority to approve the use of cost-plus-fixed-fee, price-incentive, or other types of contracts with cost variation or cost adjustment features concurrently at the same work site with firm-fixed-price, lump sum, or unit price contracts.

3036.209 Construction contracts with architect-engineer firms.

The Head of Contracting Activity (HCA) or designee no lower than a Senior Executive Service (SES) or flag officer level may approve the award of a contract for the construction of a project to the firm that designed the project or its subsidiaries or affiliates. COCOs must submit requests to include: (1) the reason(s) why award to the design firm is required; (2) an analysis of the facts involving potential or actual organizational conflicts of interest, including benefits and detriments to the Government and prospective contractor; and (3) measures to be taken to avoid, neutralize, or mitigate conflicts of interest.

3036.212 Preconstruction orientation.

(b) DHS Form 700-15, "Preconstruction Conference Agenda and Checklist," or a similar checklist, must be used as the agenda of, or checklist for, the preconstruction conference.

3036.212-70 Contracting with the National Institute of Building Sciences.

(a) The National Institute of Building Sciences (NIBS) was chartered in 1974 to provide advice to the public and private sectors on issues involving new building technology and the building

regulatory process. Public Law 93-383, Housing and Community Development Act of 1974, specifically authorizes agencies to contract with and accept contracts from the NIBS for specific services where deemed appropriate by the responsible Federal officials involved. NIBS provides assistance or advice on building-related matters by processing:

- (1) On-line databases on current developments in building science and technology in areas such as architecture and engineering, products and materials, health and safety, and codes and standards; and
 - (2) Information pertaining to asbestos in public buildings and lead-based paint poisoning, energy efficiency in offices and industrial buildings, and seismic safety of buildings.
- (b) Section 809(g)(3) of Public Law 93-383 expressly authorizes agencies and departments to contract with NIBS. In this regard, the exception to full and open competition at [\(FAR\) 48 CFR 6.302-5](#) may be used, if the contracting officer determines this to be an appropriate exception, to award such contracts. However, the exception to full and open competition at [\(FAR\) 48 CFR 6.302-1](#) should be used when it is determined that NIBS, because of its unique capabilities and charter, is the only source that will satisfy the requirement.
- (c) The synopsis requirements at [\(FAR\) 48 CFR 5.2](#) are applicable unless a waiver is granted pursuant to [\(FAR\) 48 CFR 5.202\(b\)](#).

3036.212 Special procedures for sealed bidding in construction contracting.

3036.213-2 Presolicitation notices.

The COCO may waive the requirement to send presolicitation notices to prospective bidders on any construction requirement when the proposed contract is expected to equal or exceed \$100,000.

3036.213-70 Report of proposed Federal construction.

(a) Section 1.4 of the Davis-Bacon Procedural Rules, 29 CFR Part 1, Procedures for Predetermination of Wage Rates, requires agencies using wage determinations under the Davis-Bacon Act, among other statutes, to furnish the Administrator, Department of Labor (DOL), a general outline of its proposed construction programs for the coming year indicating the estimated number of projects for which wage determinations will be required, the anticipated types of construction, and the locations of construction.

(b) OEs must use the DOL-1671, Report of Proposed Federal Construction, found in HSAM Chapter 3053, to fulfill the requirements of HSAM 3036.213-70(a). The report must be submitted to the Office of the Chief Procurement Officer (OCPO) not later than July 30 of each fiscal year. The OCPO will consolidate the OE reports for transmittal to DOL. Negative reports are required.

Subchapter 3036.6 Architect-Engineer Services

3036.602 Selection of firms for architect-engineer contracts.

3036.602-1 Selection criteria.

(b) The COCO is authorized to approve the use of design competition and must be obtained prior to soliciting proposals.

3036.602-2 Evaluation boards.

The COCO must establish one or more ad hoc Architect-Engineer (A-E) evaluation boards for each acquisition of A-E services. For A-E acquisitions exceeding the simplified acquisition threshold, the following requirements apply in addition to [\(FAR\) 48 CFR 36.602-2](#):

(a) The A-E evaluation board(s) must be composed of the following members:

- (1) One member with experience in acquisition of A-E services (normally the contracting officer or contract specialist/negotiator);
- (2) One or more members with technical experience in the fields of architecture, engineering or construction (normally someone from the organization responsible for establishing the A-E work requirements);
- (3) One member with technical knowledge of the functional (user) requirements of the project; and
- (4) Other special members as are deemed necessary.

(b) A-E board members may be appointed from among highly qualified professional employees of other Government agencies or the private sector who are engaged in the practice of architecture, engineering, construction, or related professions.

3036.602-3 Evaluation board functions.

The HCA retains the authority to direct the functions of the evaluation board.

(a) For A-E acquisitions exceeding the simplified acquisition threshold, the A-E evaluation board must perform the following functions in addition to, or in combination with, those of [\(FAR\) 48 CFR 36.602-3](#), and in the sequence indicated:

- (1) Analyze the nature and scope of the project work requirements.
- (2) Develop the evaluation criteria and rating systems to be used in screening firms for the pre-selection list and in the final selection. The screening criteria should be based on information provided by the SFs 254 and 255.

(3) Prepare the public announcement (see [\(FAR\) 48 CFR 5.205\(d\)](#)) for the project and provide it to the contracting officer for publication.

(4) Screen the SFs 254 and 255 and any other qualification data received in response to the public announcement of the project and prepare a pre-selection list of the best qualified firms for further consideration. The preselection list must consist of at least three firms.

(5) When appropriate, obtain in writing more specific and detailed qualification, experience and past performance data (see [\(FAR\) 48 CFR 36.602-1\(a\)](#)) not provided by the SFs 254 and 255 which are needed to evaluate the firms using the established selection criteria. The firms should also be provided with a description of the nature and the scope of work to be accomplished to assist them in their responses. The A-E firms shall be advised not to submit price proposals, design sketches, drawings or design data at the time the qualification and past performance information is submitted.

(6) Conduct interviews with the firms on the preselection list. As part of the interview, the A-E firms shall be given an opportunity to make an oral presentation of their qualifications and experience, proposed project approach and any other relevant data. The program and project manager and other key project personnel and consultants proposed by a firm should participate in the interview.

(7) Whenever it is practical and advantageous, the A-E evaluation board should visit the offices of the A-E firms on the preselection list to inspect their facilities and work environments, to meet members of the proposed project team, and to see both work in progress and additional examples of completed projects.

(8) Review the SFs 254 and 255 and other experience and qualification data for each firm on the preselection list, and perform a systematic numerical evaluation rating of the firms.

(9) Develop a rank order listing of at least three firms considered most highly qualified to perform the required work, based on the numerical evaluation ratings of the firms on the preselection list.

(10) Prepare a report which shall include in sufficient detail:

(i) The extent of the board's review and evaluation;

(ii) The list described in paragraph (i) of this section;

(iii) Recommendations; and

(iv) Considerations on which the recommendations are based.

(d) The COCO is delegated the authority to receive the report prepared by the evaluation board.

3036.602-4 Selection authority.

- (a) The COCO is authorized to make the final selection of the most highly qualified firms.
- (b) The recommendations of the evaluation board will normally be approved, unless the report does not adequately support the recommendations. If recommendations are not approved, the A-E evaluation board shall be required to reconvene until an acceptable set of recommendations is agreed upon. The approved report serves as authorization for the contracting officer to commence negotiations with the A-E firm ranked number one by the A-E evaluation board.

3036.602-5 Short selection process for contracts not to exceed the simplified acquisition threshold.

OEs are authorized to use either of the short selection processes of [\(FAR\) 48 CFR 36.602-5](#).

- (b) *Selection by the chairperson of the board.* The COCO is authorized to review and approve the selection report.

3036.603 Collecting data on and appraising firms' qualifications.

Because it is DHS policy to establish ad hoc evaluation boards instead of a permanent board to select A-E firms, each OE must establish or designate an office or offices to meet the requirements of [\(FAR\) 48 CFR 36.603\(a\)](#).

3036.604 Performance evaluation.

- (a)(5) The HCA retains the authority to ensure that fully qualified personnel prepare and review performance reports.
- (c) Performance reports must be distributed per OE procedures.

3036.605 Government cost estimate for architect-engineer work.

- (b) Contracting officers may release Government estimates on an as-needed basis.

3036.606 Negotiations.

3036.606-70 General.

The limitation on A-E fees of six percent of the estimated construction cost (see [\(FAR\) 48 CFR 15.404\(c\)\(4\)\(i\)\(B\)](#)) applies to all services that are an integral part of the production and delivery of plans, designs, drawings and specifications of a construction project. The limitation, however, does not apply to the cost of investigative and other services including but not limited to the following:

- (a) Development of program requirements (scope of work);
- (b) Determination of project feasibility;

- (c) Preparation of drawings of an existing facility, where current drawings are not available;
- (d) Subsurface investigations (soil borings);
- (e) Structural, electrical and mechanical investigations of an existing building, where current information is not available;
- (f) Surveys: topographic, boundary, utility;
- (g) Preparation of models, color renderings, photographs or other presentation materials;
- (h) Travel and per diem for special presentations;
- (i) Supervision and inspection of construction;
- (j) Preparation of operating and maintenance manuals; and
- (k) Master planning.

3036.609 Contract clauses.

3036.609-1 Design within funding limitations.

(c) The HCA may determine in writing not to include clause [\(FAR\) 46 CFR 52.236-22](#) in fixed-priced A-E contracts because: (1) cost limitations are secondary to performance consideration and additional project finding can be expected, if necessary, (2) the design is for a standard structure and is not intended for a specific location, or (3) there is little or no design effort involved.

3037.112 Government use of private sector temporaries.

(a) Definitions. The following words and terms are used in and defined for this subsection.

"Critical need" means a sudden or unexpected occurrence; an emergency; a pressing necessity; or an exigency. Such occasions are characterized by additional work or deadlines required by statute, executive order, court order, regulation, or formal directive from the Secretary of Homeland Security or designee. A recurring, cyclical peak workload, by itself, is not a critical need.

"Federal supervisor" means an individual employed by DHS to hire, direct, assign, promote, reward, transfer, furlough, layoff, recall, suspend, discipline, or remove employees, to adjust their grievances, or to effectively recommend such action, if the exercise of the authority is not merely routine or clerical in nature but requires the consistent exercise of independent judgment.

"Parental and family responsibilities" means situations such as absence for pregnancy, childbirth, child care, and care for elderly or infirm parents or other dependents.

"Temporaries" means those employees of a temporary help service firm who are supervised and paid by that firm and whom that firm assigns to perform the contract work assignments.

"Temporary help service firm" means a contractor which provides services that are performed by its pool of employees possessing the appropriate work skills for brief or intermittent periods. The firm is the legally responsible employer and maintains that relationship during the time its employees are assigned to the contract. The firm recruits, tests, hires, trains, assigns, pays, provides benefits and leave to, and as necessary, addresses performance problems, disciplines, and terminates its employees. The firm is responsible for payroll deductions and payment of income taxes, social security (FICA), unemployment insurance, and worker's compensation, and any required liability insurance and bonding.

(b) *Policy.* Temporary help services may be acquired for the brief or intermittent use of the skills of private sector temporaries. Acquisition of these services is subject to the following conditions:

(1) The temporary will be performing the work of an employee who will be absent from the position for a temporary period (short-term) because of a personal need including emergency, accident, illness, parental or family responsibilities, or mandatory jury service.

(2) In the judgment of the head of the requesting office, the temporary help is for a critical need which cannot be delayed.

(c) *Exceptions.* Temporary help services cannot be acquired--

(1) To displace a Federal employee;

(2) For the work of managerial or supervisory positions;

(3) For the work of or to fill an Senior Executive Service (SES) employee or position; or

(4) To circumvent the regular recruitment and hiring procedures under the civil service laws for permanent appointment in the competitive civil service.

(5) To circumvent controls on employment levels; or

(6) In lieu of appointing a surplus or displaced Federal employee as required by 5 CFR Part 330, Subpart F (Agency Career Transition Assistance Plan for Displaced Employees) and Subpart G (Interagency Career Transition Assistance Plan for Displaced Employees).

(d) *Certification of need.* The requirements office must submit a Checklist for Private Sector Temporary Personnel, Appendix A, with the procurement request (PR) for temporary help services. The entire checklist must be completed, including the certification of the regulatory requirements by the Chief Human Capital Officer or OE servicing Human Resource Official

(e) *Acquisition and contract requirements.* The contracting officer shall comply, as applicable,

with all of the policy and procedures of the FAR to acquire temporary help services by contract. The following limitations apply:

(1) The contract shall not create or imply an employer-employee relationship between the Government and the contractor's temporary, and the temporary shall not be eligible for civil service employee benefits, including retirement; and

(2) *Time limit on use of temporary help service firm.* The contract shall not require the use of a temporary help service firm in a single situation, as defined at HSAM 3037.112(a), initially for more than 120 workdays. However, if the Government employee's absence or DHS's critical need continues to exist beyond the initial 120 workdays, the temporary help services may be extended up to a maximum limit of 240 workdays.

(3) *Time limit on use of individual employee of a temporary help service firm.* The contract shall not require that a temporary at an office work for more than 120 workdays in a 24-month period. The 24-month period begins on the first day of assignment. However, the temporary may work up to a maximum of 240 workdays if it is determined that using the services of the same individual for the same situation will prevent significant delay.

(f) *Approval for extended services by the OE personnel office.* If the requiring office desires to retain the services of the same temporary help service firm beyond 120 workdays, or needs to use a temporary beyond the 120 workdays, the requiring office must submit information to the OEA personnel office for approval. The OE personnel office should receive the notification at least 10 working days before the 120 workday period expires. The information required for submission is:

(1) A full justification for the extension beyond the 120 workday period;

(2) The new termination date or number of extra workdays needed;

(3) The total number of days worked by the current temporary and the reason for using the individual;

(4) The importance of the work to be done and the impact of delay or interruption; and

(5) The actions taken to find other solutions, and the availability of external and internal candidates.

(g) *Contract administration.* The office receiving the temporary shall ensure that an employer-employee relationship is not established with the contractor's temporary. However, technical advice, assignment of task, task-related instructions, office orientation, and review of the temporary's work products are necessary to ensure that the temporary performs the requisite services.

3037.112-70 Stenographic reporting services.

(a) The contracting officer is delegated authority under 5 U.S.C. 3109 (to procure stenographic

services by contract).

3037.113-1 Waiver of cost allowability limitations.

(a) The Head of Contracting Activity (HCA) is delegated this authority.

Subchapter 3037.2 Advisory and Assistance Services

(a) The Chief of the Contracting Officer (COCO) is delegated authority under 5 U.S.C. 3109 (to procure by contract the temporary or intermittent services of experts or consultants or an organization thereof, if such an acquisition is authorized by an appropriation or other statute).

(b) The rate of pay for services rendered by an expert or consultant is limited and cannot be exceeded unless specifically authorized by the appropriation or other statute which authorizes the acquisition of the services. The rate of pay for services rendered by a consultant to an advisory committee is governed by Management Directive Number 3010, Use of Experts and Consultants or 41 CFR, Subpart 101-6.10.

(c) Since the statutes governing the acquisition of and rate of pay for these services are subject to change, the contracting officer must seek the advice of the OE's legal counsel prior to taking action on the procurement request for such services.

3037.203-71 Third party benefits.

When a contract calls for providing technical assistance or advice that will benefit a third party, these services are advisory and assistance in the context of any regulation, statute, or guidance on these services. While these services may ultimately benefit an external or third party such as grantees or the states, the services are being acquired to accomplish the program objectives of DHS.

3037.204 Guidelines for determining availability of personnel.

(a), (b), and (d) The COCO is delegated the authorities at ([FAR](#)) [48 CFR 37.104](#).

(b)(1) The determination must ensure that the requirements of ([FAR](#)) [48 CFR 9.5](#) and (HSAR) 48 CFR 3052.209-70 are met regarding potential organizational and consultant conflicts of interest.

3037.205 Contracting officer responsibilities.

In addition to the requirement of ([FAR](#)) [48 CFR 3037.205](#), the contracting officer must ensure that the requirements of ([FAR](#)) [48 CFR 9.5](#) and (HSAR) 48 CFR 3052.209-70 are met regarding potential organizational and consultant conflicts of interest.

(c) and (d) The HCA must ensure that procedures are in place for service contracting to ensure compliance with the OFPP Policy Letter 92-1, Inherently Governmental Functions, and performance-based contracting.

(a) Contracting offices shall follow the procedures under the MOU between DHS and the Defense Contract Audit Agency (DCAA) to order audit services.

Subchapter 3042.2 Contract Administration Services

3042.202 Assignment of contract administration.

(a) Contracting officers shall comply with the procedures under the MOU between DHS and the Defense Contract Management Agency for contract administration support services.

(c) Delegating additional functions. (2) The Chief of the Contracting Office (COCO) is authorized to approve the delegation to the contract administration office (CAO).

Subchapter 3042.6 Corporate Administrative Contracting Officer

3042.602 Assignment and location.

The Head of Contracting Activity (HCA) or designee no lower than flag officer or Senior Executive Service (SES) level is delegated this authority.

Subchapter 3042.7 Indirect Cost Rates

3042.703 General.

3042.703-1 Policy.

DHS normally relies on the indirect cost rates established by DCAA unless the DHS Office of Inspector General (IG) and DCAA mutually agree that the IG or another agency will be the cognizant audit agency.

3042.703-2 Certificate of indirect costs.

(b) *Waiver of certification.* (1) The COCO is delegated this authority.

3042.705 Final indirect cost rates.

3042.705-1 Contracting officer determination procedure.

(a) *Applicability and responsibility.* The contracting officer is responsible for ensuring that the direct and indirect costs paid under a cost reimbursement contract are allowable. Under most circumstances, DHS recognizes that periodic incurred cost audits by a contractor's cognizant audit agency are the preferred mechanism to assist the contracting officer in ensuring the validity

of direct and indirect costs billed under cost reimbursement contracts. If at any time the contracting officer decides not to obtain an independent audit, the contracting officer shall document the file as to why the independent audit was not obtained. The file documentation shall include, as a minimum, a discussion of: (1) the reason an independent audit was not obtained (e.g., small dollar amounts remaining unaudited or unsettled; low dollar value of the contracts; planned audit was cancelled); (2) the extent of the analysis that was performed in lieu of obtaining an independent audit (e.g., desk analysis; a comparison of proposed direct costs and indirect rates to incurred direct costs and actual indirect rates; an examination of the costs included in the submission of indirect costs to detect any unallowable costs, or questionable amounts or accounts); and (3) other factors affecting the contracting officer's decision and the mitigation of risk (e.g., an approved accounting system; the absence of significant audit issues and problems in previous pre-award, post-award, or final audits; contract ceilings below claimed indirect rates).

(3) The Administrative Contracting Office (ACO) is responsible for obtaining or negotiating the rate using the guidance under [\(FAR\) 48 CFR 42.704](#), and HSAM 3042.708, and 3042.708-70.

3042-708 Quick-closeout procedure.

3042.708-70 DHS quick-closeout procedures.

The contracting officer may:

(a) Require the contractor to submit the following: (1) the contractor's final indirect cost rate proposal reflecting actual cost experience during the covered period(s), together with supporting cost or pricing data, for each of its fiscal years for which quick-closeout is involved, and (2) a final voucher and a summary of all costs by cost element and for each of its fiscal years for the contract(s) in question.

(b) Notify the cognizant audit activity, either verbally or in writing, identify the contract(s), and request: (1) the contractor's indirect cost history covering a sufficient number of fiscal years to see the trend of claimed, audit questioned, and disallowed costs; and (2) any other information that could impact the decision to use quick-closeout procedures. Indirect cost histories should be requested from the contractor only when the cognizant audit activity is unable to provide the information.

(c) Review the contract(s) for indirect cost rate ceilings and any other contract limitations, as well as the rate history information.

(d) If quick-closeout procedures are appropriate based upon the information obtained pursuant to paragraphs (a), (b), and (c), the contracting file shall be documented with the findings and rationale. See HSAM 3042.7100, Policy, on what is to be included in the file documentation.

(e) Final indirect cost rates should be established using one of the following:

(1) ceiling indirect cost rates established in the contract (if applicable), consistent with [\(FAR\) 48](#)

[CFR 42.707\(c\)\(1\) and \(2\).](#)

- (2) contractor's claimed actual rates adjusted based on the contractor's indirect cost history.
- (3) recommended rates from the cognizant audit agency, the local pricing office, another installation pricing office, or other recognized knowledgeable source.
- (4) billing rates established in the contract.
- (5) previous year's final rates in the contract, if established.
- (6) contracts established final rates for another fiscal year closest to the period for which closeout rates are being established.
- (f) If an agreement is reached with the contractor, obtain a release of all claims and other applicable closing documents (see (HSAR) 48 CFR 3004.804-570).

Subchapter 3042.8 Disallowance of Costs

3042.803 Disallowing costs after incurrence.

- (b) *Auditor receipt of vouchers.*
- (3)(ii) When the contractor files a claim for unreimbursed costs under the Disputes clause of the contract, contracting officers shall process the claim in accordance with OE procedures.

Subchapter 3042.14 Traffic and Transportation Management

3042.1401 General.

**INSTRUCTIONS FOR DHS-700-18
CONTRACT FACILITIES CAPITAL AND COST OF MONEY**

PURPOSE: The purpose of this form is to compute the estimated facilities capital to be employed for a specific contract proposal. An intermediate step is to compute the estimated facilities capital cost of money, using the Facilities Capital Cost of Money Factors developed on Forms CASB-CMF (See FAR 30.414 - Appedix A). This procedure is intended to be fully compatible with Cost Accounting Standard 414 "Cost of Money" as an element of the Cost of Facilities Capital, and extend those criteria and techniques to prospective periods for forward pricing purposes.

IDENTIFICATION: Identify the contractor, business unit and address. Identify the specific RFP or contract to which the computation pertains. Identify the estimated performance period of the contract.

OVERHEAD POOLS (Col. 1): List all business unit overhead pools and direct-charging service/support centers whose costs will be allocated to this contract. The structure must be compatible with the contractor's cost proposal and Forms CASB-CMF (See FAR 30.414 - Appendix A).

COST ACCOUNTING PERIOD (Col. 2): This column is used only for the "projected" method of estimating contract facilities capital employed and cost of money. Each Overhead Pool listed must be further broken down by each Cost Accounting Period impacted by the performance period of the contract. The yearly breakdown must also correspond to yearly overhead allocation bases in the contractor's cost proposal, and to separate Forms CASB-CMF for each listed. If the "historical" method is used, the column should be ignored.

CONTRACT OVERHEAD ALLOCATION BASE (Col. 3): For each Overhead Pool and Cost Accounting Period listed, record the same Contract Overhead Allocation Base amounts used in the pricing report to derive the pre-negotiation cost objective. Such amounts should be the same as those used for burdening contract overhead or applying service/support center use charges. The base units-of-measure must agree with those used on the Forms CASB-CMF.

FACILITIES CAPITAL COST OF MONEY FACTORS (Col. 4): Carry forward the appropriate estimated Facilities Capital Cost of Money Factors from the Forms CASB-CMF. Business units, overhead pools and cost accounting periods must agree.

FACILITIES CAPITAL COST OF MONEY AMOUNT (Col. 5): The product of each Contract Overhead Allocation Base (Col. 3) multiplied by its related Facilities Capital Cost of Money Factor (Col. 4).

CONTRACT FACILITIES CAPITAL COST OF MONEY (Line 6): The sum of Col. 5. This represents the contract's allocable share of the business unit's estimated cost of money for the cost accounting period(s) impacted by the contract performance period. Therefore, it represents a portion of the total(s) of Col. 5 of Forms CASB-CMF.

FACILITIES CAPITAL COST OF MONEY RATE (Line 7): The same Cost of Money Rate used in Col. 1 of the Forms CASB-CMF. Only one rate will be used in the facilities capital estimating process regardless of the length of the contract performance period.

CONTRACT FACILITIES CAPITAL EMPLOYED (Line 8): The quotient of Line 6 divided by Line 7. This represents the contract's allocable share of the business unit's estimated facilities value for the cost accounting period(s) impacted by the contract. Therefore, it represents a portion of the total(s) of Col. 4 of Forms CASB-CMF.
